CHAPTER I HISTORY OF SURIGAO CITY

1.1 MYTHICAL ORIGIN

Legendarily, the urban area of Surigao was formerly known as "Banahao", which contained a good port for ships called "Bilan-Bilan". Banahao was part of the old district of Caraga, which later on became the politicomilitary district of Surigao with Tandag (presently the capital of Surigao del Sur) as its capital. Caraga derives from the word Calagan which means "Land of the Brave" or "fierce people". The Italian adventurer Francisco Giovani Careri, who published a book of travel in the country, cited Francisco Combes, as a source in saying that Calagan is derived from the two Visayan words: kalag or calag which means soul or people and for land.

Surigao officially became the permanent residence of the Recollects on February 1, 1752 when all the canonical books were moved from Siargao to Surigao. The first canonical books bore the signature of Fr. Lucas de la Cruz. Previously, the place was just a "vista" of the parish in Caolo (Siargao).

It was through Surigao Strait that the fleet of Ferdinand Magellan after a brief stay at the island of Homonhon, sailed into the Philippine Archipelago during the epic voyage of discovery and eventual circumnavigation of the world in 1521.

It was this body of water that the Battle of Surigao Strait was fought in World War II, from October 24-25, 1944 between United States, Filipino and Japanese fleets.

Surigao was named after the old province (district) of the same name (Surigao). There are many versions regarding the meaning of Surigao, as to how this was derived. Surigao probably came from the Spanish word Surgir, meaning swift water or current.

1.2 LEGAL EXISTENCE

On June 29, 1655, Surigao became a town and by 1751, it was made the seat of the provincial government, after Caolo, the former provincial capital, was burned. Since then, the town of Surigao became a center of Spanish political and ecclesiastical power in the region, rivaled only by Tandag on the southern coast of Surigao Province.

The town suffered severely from Muslim raids. In 1752, after the town was devastated, almost all of its 2,000 inhabitants were either killed or taken as slaves by the Muslims.

During World War II, on May 23, 1942, the Japanese Imperial Forces under Captain Yusee occupied Surigao. The local government was then managed by Mayor Amat. Later, after the American planes bombed Bilangbilang harbor on September 9, 1944, the American troops and guerilla units forced the Japanese forces to withdraw until Surigao was liberated on April 12, 1945.

In July 1945, the Philippine Civil Affairs Unit (PCAU) took over the local government, prior to the restoration of the administration to the local authorities.

During the Commonwealth period, Protolico Egay was appointed by the guerillas as governor of Surigao Province and Macario Diaz, who resumed his office on September 1, 1945, as mayor of the town of Surigao. He was succeeded by the guerilla-appointed mayor, Juan Parrucho.

By virtue of Republic Act No. 2786, dated June 19, 1960, the old Province of Surigao was divided into Surigao del Sur and Surigao del Norte, with the Municipality of Surigao as the capital of Surigao del Norte. Surigao became a chartered city under Republic Act No. 6134, which was approved on August 31, 1970.

1.3 OTHER MILESTONES

1.3.1 Historical Development

In 1901, Surigao was once a municipality with a jurisdictional area of 949.90 square kilometers. The Americans established a civil government in the province of Surigao. During this period, there was only one main road, an Old Spanish Road, and the commercial area, market and plaza were situated contiguously. In 1930, the Old Spanish Road was abandoned and a new provincial road was constructed. A Casa Real was built where the municipal administrators hold their official functions.

On May 28, 1942 during the Second World War, the Japanese Imperial Army took control of Surigao. More than two (2) years after on September 9, 1944, American forces bombed the Japanese battleships docked at Surigao harbor. The whole province of Surigao was liberated from Japanese occupation in 1945.

It was during the post-war era when economic activities in Surigao started to boom. Gold extraction in Mabuhay operated by Mindanao Mother Lode Mines, Inc. started. Population went up due to inmigration. This post-war economic growth resulted to the creation of some of its barrios into towns like Malimono, Anao-aon and Sison. It was also during this period in 1946 when the provincial capitol, municipal jail and some school buildings were constructed. The athletic field was developed.

The first election of municipal officials was held in 1948. In 1954, the first municipal building was constructed. Surigao had 23 barrios then. Construction of the municipal building was finished and inaugurated in 1955. Surigao then was a 1st Class B municipality with an annual income of P160,000.00 and a population of 50,000. It was largely an agricultural municipality producing copra, lumber, rice, corn, bananas, and rootcrops. There were two (2) school districts – Surigao East and Surigao West. The airport was developed, land transportation facilities improved and public health services expanded. There were also three (3) movie houses and three (3) hotels.

Surigao was divided into two (2) provinces – Surigao del Norte and Surigao del Sur pursuant to R.A. 2736 dated June 19, 1960. In 1964 another election was held, and this year marked a tragic event in the history of the Surigaonons. All the developments that the province gained literally turned into pieces from the destruction wrought by Typhoon *Ining* (international code name – Louise), which hit the area on November 19, 1964.

In 1969, exploration of the nickel deposits in the Island of Nonoc began with a capitalization of over P1.0 billion. On August 31, 1970, the City of Surigao was created pursuant to R.A. 6134. The first local election of Surigao as a city was held on November 1971.

There were already 53 barangays – 21 in the islands and 32 in the mainland with a total population of 51,496. The city's official land area based on National Statistics Office (NSO) data is 245.34 square kilometers but it has a jurisdictional area of about 690.37 square kilometers owing to 21 of its 54 barangays being located in the islands. The city's land area however based on the results of the field surveys of 1995 and the City Assessor's Tax Map data, registered a total of 259.64 square kilometers.

In 1974, several barangay roads were constructed. Housing, educational, commercial, and recreational facilities increased. Operation of the Marinduque Mining and Industrial Corporation in Nonoc Island started, and the first nickel briquette was produced December of the same year. With the Nonoc nickel operations providing the industrial backbone and opening up as much as 3,000 employment opportunities, population remarkably rose, business establishments flourished and the city income reached more than P1.9 million. Total road length within the city was then 99.852 kilometers. There were now four (4) school districts and on the same year (1974), a fire razed down the city public market.

For a period of ten years, several developments were noted. Exploration of gold mines in Barangay Mat-i, Silop and Mapawa started construction of an oil mill in Barangay Lipata by the Surigao Coconut Development Corporation, and an ice plant and cold storage. Revenue collection increased to P7.6 million.

In 1983, revenue collections increased to P13.4 million. About 200 kilometers of roads were opened up, repaired or improved. Several new school buildings were put up, seawalls and barangay ports were started, and the implementation of barangay water systems was expanded. The turn-around pad and stopway of the Surigao Airport was constructed, together with other government buildings. Little improvements were also done on the urban drainage system, and the Lipata Ferry Terminal was completed.

20 years after the worst natural disaster wrought havoc in Surigao, another strong typhoon – "Nitang" hit the locality in September 1984, badly destroying infrastructure, utilities, and settlements and displacing several families. Two (2) years after in 1986, typhoon "Aning" devastated Surigao. This year, the Nonoc Mining and Industrial Corporation shut down operations amidst declining world metal prices, high prices of crude oil, and labor problems.

On January 18, 1988, another local election was held marking the "post-EDSA" era in local governance. The city's population increased to almost 100,000 and its income reached more than P23.0 million. Continuing development efforts were undertaken, especially in the rebuilding and strengthening of the city's infrastructure backbone. Development of farm-to-market roads in the mainland barangays started, seawalls and ports in the island barangays were pursued, manpower skills training were implemented, the construction of the urban shore protection and boulevard development started. And blessedly, natural disasters and other calamities were almost nil.

The 1990's were marked by several turns of events that offered more fruitful developmental gains for the city. The passage of R.A. 7160 in 1991 ushered the increase in the local share of the internal revenue allotment (IRA) dramatically increasing local income. Greater financial autonomy resulted to more sources of financing and more leeway in the creation of additional sources of income. This is the period of the development of local government economic enterprises beginning with the new public market in 1992, the commercial building in 1993, Maharlika Training Center and Beach Resort in 1995, then the Integrated Bus and Jeepney Terminal in 1997. The city's income reached P200.0 million.

Basic barangay infrastructure and the mainland farm-to-market roads were completed. The urban coastal reclamation and shore protection was likewise completed and the land-based and cellular phone networks were established. There was now a Cable TV operator, local FM station and the Surigao Wharf was expanded. The urban area now covers five (5) barangays and a new barangay (Canlanipa) was created.

The creation of Caraga Region in 1995 strengthened the city's position as the industrial, commercial, and services center in the Mindanao Pacific Rim Area. The city achieved a first-class status in July 1997. Such classification however was reverted back to 2nd class in the 2000's owing to the restructuring of income classification of local governments by the Department of Finance.

The years 2000 to the 2010s era ushered in more challenges and transformation for the city. Competitiveness, transparency and accountability become key considerations in the much broader local development realm. Despite high poverty incidences recorded in the provincial and regional levels, the city's development remains on track highlighted by being recognized as one of the country's most livable cities in 2003, awarded as Child-Friendly City, and as Mindanao's Most Business-Friendly LGU in 2007. Governance reforms were initiated in the front-line services with emphasis for streamlining and greater customer satisfaction together with improvements in emergency response services and disaster management. Local businesses expanded and increased and the entry of national brands in services/fast foods also started. Tourist arrivals breached the 100,000 mark and LGU income started to reach the P500.0 million level. The number of banks in the locality also increased to more than 20 with new entrants both in the rural, thrift, commercial and universal banking categories, despite the merger of several existing banks. Pawnshops and remittance centers flourished together with new hotels and accommodation establishments. The development and operation of the city's first ever shopping mall started in 2011 and the first phase of the city boulevard development started to transform itself as the new urban promenade.

The 2010s era also marked the expansion and improvements of both the main seaport and the Lipata ferry port. Greater consciousness in environmental management, disaster risk reduction and climate change adaptation started to gain track ushered in by global campaigns, changing needs and

new national laws and directives. The city was able to put up and operate a Sanitary Landfill facility for solid waste management. Road widening projects along the national highway commenced together with new road openings/construction to support tourism purposes in Sition Tagbasingan, Mat-i and in Punta Bilar-Looc-Mabua.

Key development scenario that is envisioned in the coming decades is the re-operation of the Nonoc Nickel Refinery, development of a special economic zone in Nonoc Island, establishment of a fishing port complex in Brgy. Canlanipa, coastal reclamation for commercial estate development in the area of Brgys. San Juan, Sabang and Lipata, the completion of the four-lane road widening of the Surigao Wharf Road and the Surigao-Agusan Road, the new road opening from Cagniog-Canlanipa to the main city seaport, and the expansion of the city airport.

1.3.2 Official Seal

The Official Seal of the City of Surigao was approved by the City Board on April 8, 1975 under Resolution No. 24.

As the official symbol representing the community, it naturally tells the story and depicts the profile of the city.

The seal is circular. The WHITE field in the center of the seal is a silhouetted letter "S" which stands for Surigao. On this white field is an industrial building together with the crossed pick and shovel at its bottom is a symbol of the city's primary industry base which is mining.

The right side of the seal is colored **BLUE** and shows a figure of a coconut tree, which represents the thriving coconut industry, being the major source of income in the city.

Drawn on the left side of the seal which is colored **RED** is the picture of a fish which depicts the good fishing harbor and considered as the second major source of income and livelihood in the locality.

The 1970 printed in the bottom of the white "**S**" denotes the founding year of the Charter of the City of Surigao.

The tri-color scheme of **RED**, WHITE and **BLUE** reflects the Philippine Flag and such signifies our being part and parcel of the Republic of the Philippines.

Original Seal when the city was created on August 31, 1970 under R.A. 6134

Official City Seal approved by the City Board on April 8, 1975 under Resolution No. 24

Present Official Seal approved by the Sangguniang Panlungsod on May 22, 2003 per Resolution No. 155-2003

1.3.4 Development Directions of Surigao City

VISION

"With the blessings of the Divine Providence, Surigao in 2025: a model city for good governance, economic dynamism, and environmental quality".

MISSION

"To continuously raise the standards of governance through the empowerment of our citizenry. The outcomes from effective partnerships and cooperation shall secure total quality of life of all our citizens. We are open to share our own experience and learn from the best practices of other cities in Caraga, in Mindanao, and the rest of the country."

CHAPTER II GEO-PHYSICAL ENVIRONMENT

2.1 GEOGRAPHICAL LOCATION

Surigao City is geographically located in the Northeastern tip of Mindanao, at between 9° to 10° North latitude and 125° to 126° East longitude. It is bounded on the North by Dinagat Island, on the South by the Surigao del Norte mainland, the waters of Hinatuan Passage on the East, and the Surigao Strait on the West (*Figure 2.1*).

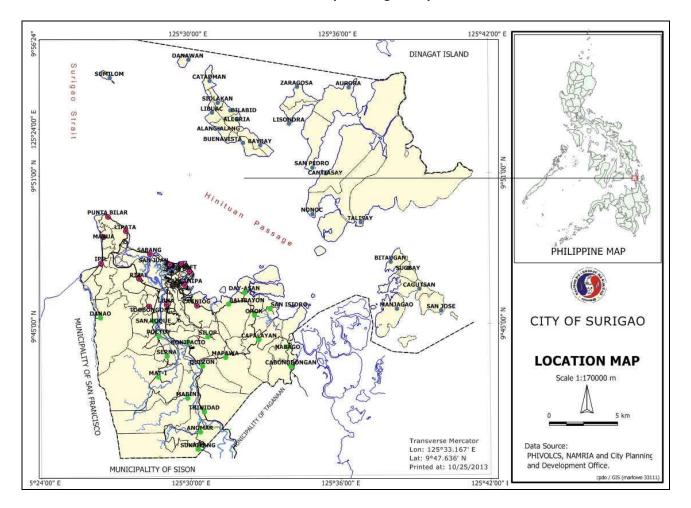

Figure 2.1 Location Map of Surigao City

The city's geographical location is unique which is blessed with the existing sea waters that divide the city into mainland and island barangays. The city is also noted for its proximity to the almost fathomless underwater ravine, the "Philippine Deep", which is one of the deepest portions in the Pacific Ocean, including all other oceans in the world.

2.2 TOPOGRAPHY

2.2.1 Elevation

Surigao City has an average elevation level of 19 meters or 65.5 feet above sea level. The highest elevation in the mainland is the Kabangkaan Ridge situated along the border of the Municipality of San Francisco with a peak elevation of 465 meters above sea level, followed by Balibayon Peak with an elevation of 335 meters. Along the border of Tagana-an is the Mapawa Peak with an elevation of 245 meters above sea level with scattered descending slopes covering the barangays of Cabongbongan, Nabago and Capalayan.

In the islands, the highest peak is the Mount Conico located in Brgy. Cantiasay with an elevation of 335 meters above sea level overlooking the Cantiasay Channel. The Nonoc Island Range has an

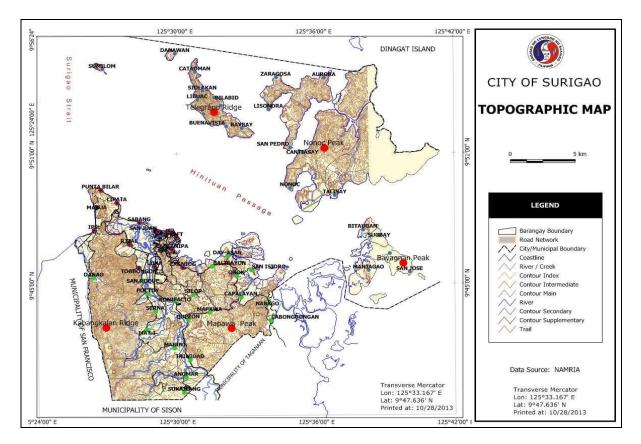

elevation of 264 meters above sea level, and the Island of Hanigad with a peak elevation of 163 meters. The highest point in Hikdop Island is in Mt. Telegrapo with a peak of 250 meters. The Island of Bayagnan located on the eastern part of Surigao City has a highest elevation of 242 meters (*Table 2.1*).

Name of Ridge	Elevation (in meters)	Location
A. MAINLAND		
1. Kabangkaan Ridge	465	Along the border of the Mun. of San Francisco
2. Balibayon Peak	356	Brgy. Rizal
3. Mapawa Peak	245	Along the border of the Mun. of Tagana-an
B. ISLAND		
1. Mt. Conico	335	Brgy. Cantiasay
2. Nonoc Island Range	264	Nonoc Island
3. Mt. Telegrapo	250	Hikdop Island
4. Bayagnan Island Range	242	Bayagnan Island
5. Hanigad Island Range	163	Hanigad Island

Figure 2.3 Elevation Map of Surigao City

2.2.2 Slope

The slope categories in the urban core of Surigao City have a range of from 0 to 2% mangroves and alluvial flat lands. Similarly, coastal built-up areas going east and southeast of the mainland has the extent of mangrove level to nearly alluvial agricultural plains. Other areas at 0 to 2% alluvial range can be traced along the reclaimed wetlands of Barangay San Juan, fishponds and mangrove sanctuaries of Brgy. Sabang, spreading across the mainland along both sides of the Surigao River moving southwards up to the Brgys. of Mabini and Anomar. Flat land areas in the eastern side can be found in the coastal areas of Barangays San Isidro, Orok, Day-asan, Nabago and portion of Capalayan; on the western side along the coasts of Barangays Mabua and Ipil up to the portion of the boundary with the Municipality of Anao-aon.

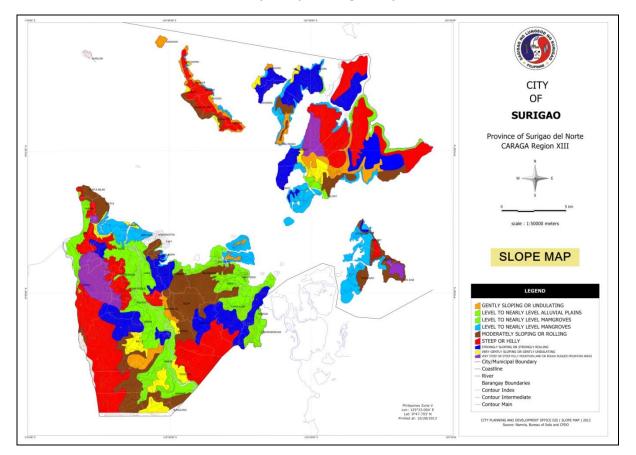

Slope categories ranging from 2% to 5%, and 5% to 8% are dominant along the Barangays of Punta Bilar and Lipata on the eastern portion, the Barangays of Cagniog and portion of Canlanipa in the urban and sub-urban area, the area on the mid-western portion bounded by the Barangays of Balibayon, Orok, Capalayan, Mapawa, Quezon, Bonifacio and Silop. On the southern portion, these slope categories can be found west of the alluvial plains of Barangays Mat-i, Mabini, Anomar, and the area of Sukailang.

Critical slope areas of 18% to 30% and 30% to 50% ranges can be found on the southeast of the mainland, specifically the areas of Barangays Cabongbongan and Mapawa extending down south along the border with the Municipality of Taganaan. 30% to 50% slope ranges is also dominant in the city's watershed area in the southwest bordering the Municipality of San Francisco.

In the islands, the middle portion of Hikdop and the mid-northern part of Nonoc have slope ranges of 30% to 50%. Likewise, the northern portion Awasan Island also falls along this category.

Rugged mountain areas with more than 50% slope are only very limited in the city's jurisdiction. Such can be found in the mainland west of the hilly portions of the Barangays of Togbongon and San Roque. In the islands more than 50% slope category can be found east of Barangay Cantiasay.

Figure 2.4 Slope Map of Surigao City

2.3 GEOLOGY

2.3.1 Land Forms

The mainland and clustered islands of Surigao City has irregular or hilly topography with flat lands near the coast.

The city is comprised of 17 major islands/islets groups comprising the city domain which totaled to approximately 12,489 hectares or 51% of the city's total land area. Nonoc Island constitutes the largest area followed by Hikdop Island (*Table 2.3*).

Table 2.3		
Major Island Groups

2.3.2 Soils, Land Characteristics and Rock Formations

The city's built-up area falls under the miscellaneous land type with no distinguished soil series. The Coastal Landscape of active tidal flat with brackish water deposits and beach ridges consisting of marine deposits constitute about 10% of the city's land area and are dominant along the coast, reclaimed areas, mangrove sanctuaries and fishpond areas of Barangay San Juan.

The Alluvial Landscape consisting of the upper, lower flats and point bar of the recent river flood plains with high fertility suitable for rice plantation extends from the banks of the Surigao River along the Barangays of Rizal, Togbongon, Luna, San Roque, Poctoy, Serna, Mat-i, Mabini, Anomar and Trinidad. Recent alluvium deposits are also present on the eastern side, along the Barangays of Orok, Capalayan, Nabago and Cabongbongan.

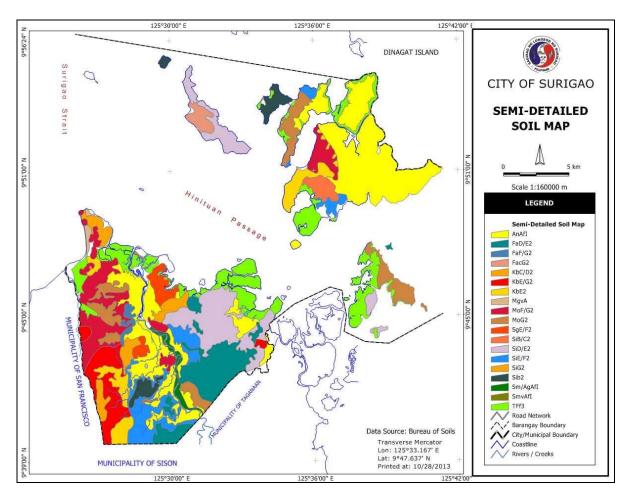

Figure 2.5 Semi-Detailed Soil Map of Surigao City

The Residual Landscape with colluvium and residium deposits from conglomerates and shale's known as the Surigao Series represents a mere 1.92%, which is concentrated in the central mainland in Barangay Serna and in the sub-urban areas of Barangays Cagniog and Canlanipa. The Sison Series of colluvium and residium deposits from tuffaceous shale and sandstones constitute about 20% of the city's land area. The concentration of this type of soil series is heavy in the rolling hills bounded by the Barangays of Silop, Capalayan, Orok, Balibayon, portions of Nabago and Cabongbongan, and in the southern portion of Brgy. Mat-i extending up to Brgy. Sukailang.

The Kabatuhan Series of collovium and residium from ultrabasic rocks along moderately eroded areas of 5% to 40% slope, are found concentrated west of the alluvial plains of Brgys. Serna, Mat-i and Sukailang up to the boundary of the Municipality of Anao-aon; in the northern tip west of Brgys. Lipata and Punta Bilar; a small portion in the dissected hills of Brgys. Nabago and Cabongbongan. In the islands, the concentration of this soil series is heavy in the Islands of Nonoc, Hanigad, and the whole of Awasan.

The Malimono Series of collovium and residium from dacite and andesite constitute about 9.28% of the city's area and these are concentrated west of the alluvial plains of Brgys. Rizal, Togbongon, San Roque and Poctoy.

The Karsts Landscape consisting of limestone hills represents almost 12% of the city's area. These are heavily concentrated in the eastern side south of the Arellano District up to the border of the Municipality of Tagana-an and in the barangays of Quezon, Bonifacio and Silop. In the islands, this soil series constitute practically the whole of Hikdop and Sibale Islands (*Table 2.4*).

2.3.3 Fault Line

Two (2) active fault lines run parallel along the boundary of the Municipality of San Francisco and Surigao City and traversing along the Arellano District up to the Municipality of Tagana-an. These are the fault zones identified by the PHIVOLCS and the survey conducted by the United Nations Revolving Fund for Natural Exploration (UNRFNFRE).

Geologic formation along these fault zones show no predominant rock formation but are mostly made up of recent alluvial and beach deposits, clay, sand and gravel and conglomerates of mud and siltstones.

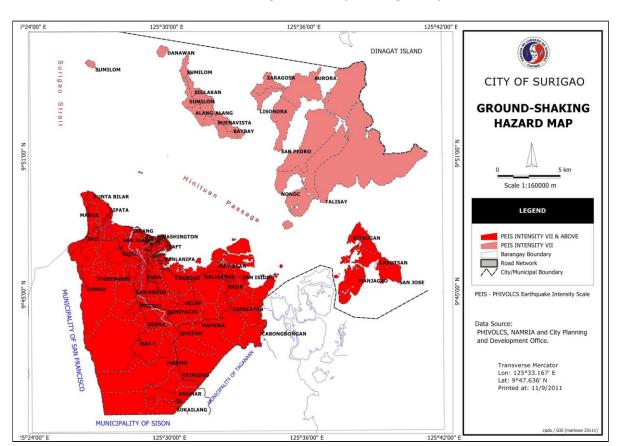

Figure 2.7 Ground-Shaking Hazard Map of Surigao City

2.4 LAND RESOURCE

2.4.1 Land Area

In the 1980 Surigao City Town Plan, Surigao City's total land area was recorded at 24,534 hectares. This total land area is roughly equivalent to 1.4% of Caraga Region's land area of 1,884,697 hectares. This was officially recognized by the Department of Environment and Natural Resources (DENR) and National Statistics Office (NSO) as the official land area of Surigao City.

With the certification issued by DENR, which was based from the Geographic Information System (GIS) generated land area of cities, municipalities and provinces of CARAGA Region, the official total land area of Surigao City as of CY 2002 now stands at 26,117 hectares.

However, this new land area of 26,117 hectares was not yet officially recognized by NSO-Manila, obliging the city to use its original land area of 24,534 hectares as official in its physical and demographical computations in relation to the city's socio-economic information.

*DENR Cadastral Survey

Surigao City's 54 barangays are comprised of 33 mainland and 21 island barangays. Land area of the mainland barangays totaled to 13,974.61 has. or 57% of the city's total land area; while the island barangays totaled to 10,559.39 has. or 43% of the city's total land area (*Table 2.6*).

The city proper is divided into five (5) urban barangays, namely: Taft, Washington, San Juan, Canlanipa and Luna. It has also eight (8) sub-urban barangays. Of the twenty (20) rural mainland barangays, fourteen (14) of which are in the mainland and six (6) are located along the coastal areas.

2.4.2 Land Classification

Surigao City's land use is classified into two (2) uses based on DENR's data, namely: Alienable and Disposable Lands (A&D) of 14,883 hectares or 57% and Forestlands of 11,234 hectares or 43%. Forestlands are divided into two (2) categories, such as:

- 1) Production Forest of 11,091.388 hectares which is located at Brgys. Day-asan, San Isidro and Nabago;
- 2) Protection Forest of 142.612 hectares or 1.3% of the forestlands located in Sitio Lumaban-Balibayon, Brgy. Rizal and Parang-Parang, Brgy. Mabini (*Table 2.7*).

Table 2.7General Land ClassificationSurigao City, 2005

2.4.3 Existing General Land Use

As of 2010, 56% of the city's total land area is devoted to agricultural land use which accounted 13,688.14 hectares; it is followed by industrial land use which covers 4,074.87 hectares or 16.6% of the city's total land area. The city's built-up area covers 2.27% or about 558.10 hectares, of which 6% is the industrial land use. The swampland covers 7% or 1,763.71 hectares, while the grassland covers 6.6% which are dominantly located in the rural area, and forestlands of 1%, respectively (*Table 2.8*).

Table 2.8 Existing Land Uses Surigao City

2.5 MINERAL RESOURCES

Surigao City is blessed with mineral resources like limestone, silica, iron ore and nickel. Total reserve for limestone in the city is about 45,643,629.00 metric tons; silica is 73,731,136.00 metric tons; iron ore is 1,005,916.00 metric tons; and nickel is 6,173,149.00 metric tons (*Table 2.9*).

Table 2.9

2.6 COASTAL RESOURCES

2.6.1 Natural Coral Reefs, Seaweeds and Sea Grass Beds

There's no data could support regarding the existing condition of natural coral reefs, seaweeds and sea-grass beds in the coastal barangays of Surigao City, since, so far, there was no comprehensive coastal resource assessment or coastal ecological resource profiling conducted. However, local

coastal residents described the said resources to be in a fair and good condition. The assessment is based on a high diversity of reef associated-fish or a high habitat diversity which are good indicator of the overall health of the coral community. However, some of these coral reefs and sea-grass beds are being affected by dynamite or blast fishing, liba-liba fishing and other illegal forms of fishing.

Information obtained from BFAR website, it is estimated that the remaining live coral in the country is around 75% based on the survey conducted in 1997. Such percentage will be used in planning purposes in the absence of recent base line information in the conduct of ecological resource profiling.

2.6.2 Mangrove Forests

The mangrove areas in Surigao City cover 2,757 hectares which are located in the Brgys. of Cagniog, Balibayon, Day-asan, Orok, San-Isidro, Capalayan, Nabago, Cabongbongan, Rizal, Sabang and Lipata. In the Islands, mangrove forests are located along the coasts of Brgys. Aurora, Zaragosa, Baybay, San Pedro, Cantisay, Talisay, Bitaugan, Cagutsan and Manjagao (*Figure 2.9*).

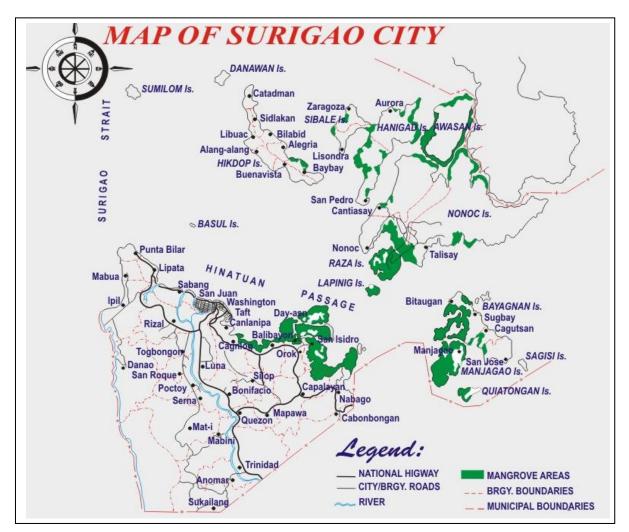

Figure 2.9 Mangrove Forest Map Surigao City

2.7 CLIMATE

2.7.1 Rainfall

The prevailing climate in Surigao City falls under Climate Type II with no definite dry season but with a pronounced maximum rainfall from January to December. Annual average rainfall on a 12-year spread is 278.125 millimeters, and the city has an average of about 237 rainy days per year in 2020, making the city one of the "wettest" in the country (*Table 2.10*).

2.7.2 Atmospheric Temperature

As of 2020, the city's average maximum temperature stands at convenient 31.2°C with an average minimum temperature of 24.3°C. The average humidity is 81%.

The city is outside of the typhoon belt and it belongs to the less frequent zone based on the PAGASA Tropical Disturbance/Typhoon Map. Although in most cases, its location is always used as the reference point of tropical storms/typhoons entering the Philippine area of responsibility.

2.8 FRESHWATER RESOURCES

2.8.1 Surface Run-off

Surigao City has eight (8) major rivers and five (5) creeks. The largest river in the city is the Surigao River. It is the main waterway of all major tributaries from creeks, irrigation drains and urban drainage belch (*Table 2.11*).

Table 2.11 Water Bodies Surigao City

2.8.2 Groundwater Resources

Among the groundwater resources are two (2) headwaters of the watershed, namely: Parang-Parang and Lumaban Watershed areas. The first headwater covers a total area of 69.60 hectares located at Sitio Parang-Parang, Brgy. Mabini, Surigao City. The whole area is proclaimed protected area under Presidential Proclamation No. 635. The other headwater is located at Sitio Lumaban-Balibayon, Barangay Rizal with an area of 73.012 hectares (*Table 2.12*).

2.9 NATURAL HAZARDS/CONSTRAINTS

2.9.1 Flooding

The Surigao River is the main waterway of all major tributaries from creeks, irrigation drains and urban drainage belch. The urban drainage system is composed of a network of reinforced concrete culvert pipes, box culverts and open canals totaling 15,893 lineal meters. Segments of this existing drainage system however are not effectively functioning. Some are clogged by clay silts, biodegradable materials and other wastes. During heavy monsoon season, rising water levels especially during high tides would eventually cause minor flooding along the streets of Barangays San Juan and Washington. Thus, the need for the upgrading of the existing drainage system coupled with technical environmental studies has become more apparent. Parallel improvements in the existing solid waste management and information system should likewise be effected.

Further, the absence of adequate river flood control facilities along Kinabutan River contributes largely to the cause of flooding along urban streets and settlement areas in the sub-urban river flood plains.

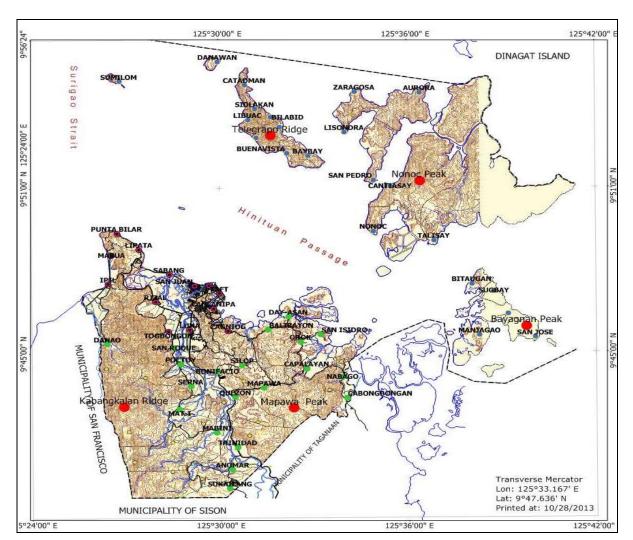

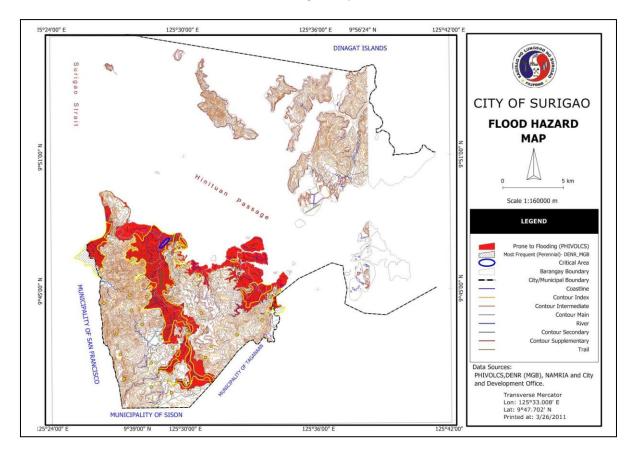

Figure 2.10 River Network Surigao City

Flooding is the most common and perennially occurring hazard in the mainland of Surigao City. This usually occurs along the river flood plains and coastal areas of the city affecting no less than all of the city's five (5) urban (Viewing Map Washington, Taft, Canlanipa, San Juan, Sabang), 12 coastal barangays in the suburban and rural districts southeast and northwest of the urban area, and 10 barangays along the Surigao River and one (1) barangay adjacent to the Anao-aon River. (Mat-i, Quezon, Serna, Poctoy, Bonifacio, Luna, Togbongon, San-Juan, Washington).

Figure 2.11 Flood Hazard Map Surigao City

2.9.2 Landslides/Erosion

Landslide hazards were found to be common in most of the barangays in Surigao City. These landslides mostly came from the topsoil and weathered upper parts of the bedrocks. The sandy weathering product of the andesite rocks apparently fluidized due to the super saturation caused by the continuous heavy rainfalls.

Landslides occurred in all types of material composing the slopes, specifically in Andesite Bedrocks in Brgys. Danao, Ipil, Lipata, Mabua, Rizal, Togbongon, San Roque, Poctoy, Mat-i, Bonifacio, Luna, Trinidad and Cabongbongan; and in Ultramafic Rocks in Brgys. Punta Bilar, Lipata, Mat-i, San Jose, Nonoc, Cantiasay, Talisay, Cagutsan, Bitaugan and Manjagao; in Sedimentary Rocks such as conglomerates, sandstones, limestone and in terrace gravel bedrocks - particularly in Brgys. Washington, Luna, Taft, Canlanipa, Cagniog and Capalayan. It also occurred in artificial filling materials of road pavements in Mapawa, Cagniog, Silop, Bonifacio and in SMWD reservoir in Brgy. Luna (*Table 2.13*).

Table 2.13
Geographically Critical Landslide-Prone Areas
Surigao City

	Name of Barangay/Sitio/Purok	Description of Geohazard
1.	Bonifacio: Along Road to Silop	Earth slump - incipient landslide coupled with scouring of road pavement.
2.	Bonifacio: Purok 1A, Km 6	Debris slide – in recurrent landslide area of weathered andesite rocks with very steep slopes planted to coconuts. Roadside has only 2 meters buffer zone.
3.	Cagniog : Purok 8	Debris slump – due to high angled slopes left by former quarry in weathered terrace gravel rock formation. High risk to houses only 5 meters from the slope. 4 houses destroyed in landslide.

	Name of Barangay/Sitio/Purok	Description of Geohazard		
4.	Canlanipa: Purok Tower	Potential Landslide – indicated by soil creep in Terrace		
		gravel formation; only 1-2 meters from existing houses.		
5.	Canlanipa: Sitio Housing	Debris slump – in very steep slopes with recent landslic affecting existing houses.		
6.	Capalayan: Purok 8	Earth slump – recent occurrence of this type of landslide		
0.		has damaged barangay roads.		
7.	Capalayan: Sitio Mananod, Purok 2	Debris flow/avalanche – due to very steep slopes in		
		weathered sedimentary rocks planted to coconuts.		
		Approximately 60 meters from the road; 4 houses were		
		destroyed; 2 casualties during Dec 18, 2004 rains.		
8.	Danao: Purok 1	Debris/earth slide - in weathered rocks with very steep		
		slopes (30 degrees), with one-meter soil layer; drained		
		by Bongbong creek. Risky to settlement 20 meters away.		
9.	Danao: Purok 3	Debris slide – very steep slopes (70 ²), 50m relief from		
		creek, 1m topsoil over weathered volcanic rocks;		
		cocoland.		
10.	Ipil: Purok Alang-Alang	Rockslide – highly critical to nearby houses directly at		
	I	the bottom of the hill with steep slopes and bedded		
		sedimentary rocks.		
11	Ipil: Sitio Palhi	Debris slump, mudflow, complex landslide - Aggravated		
тт.		by the presence of PACEMCO quarry at the ridge top		
		about 200m above the houses.		
17	Ipil: Sitio Kahoy (Ipil-Lipata road	Debris/rock slide – due to recurrent landslide in		
12.				
	junction)	fractured and weathered andesite rocks with very steep		
10		slopes (60 to 70 degrees angle).		
13.	Lipata: Purok 5	Debris slump - in highly weathered rocks with 30° to		
		vertical slopes.		
14.	Lipata: Purok 5	Debris slide - in loose ground, very steep slopes. 2		
		houses destroyed by landslide on Dec. 17, 2004.		
15.	Lipata: Purok 1	Debris slide – recurrent slides in very steep, weak slopes,		
		5-10meters away from the school.		
16.	Lipata: Purok 1	Rock slide, rock falls - in an area of recurrent slides,		
		about 5- 7meters from houses.		
17.	Luna: Sitio Bacud	Debris slide – due to very steep slopes in weathered		
		andesite rocks. One house is only 5 to 10 meters away.		
18.	Luna: Sitio San Vicente Purok 5	Debris slide – due to very steep slopes in weathered		
	(behind ice plant)	andesite rocks. Houses are only 40 to 60 meters away.		
		Ice plant partly damaged during Dec. 18, 2004 heavy		
_		rainfall.		
19.	Luna: Bernadette	Debris slump – in highly weathered terrace gravel with		
		very steep slopes, high risk to 2 houses about 25 meters		
		from the footslope.		
20.	Luna: Shrine	Debris slump – in highly weathered terrace gravel with		
		very steep slopes, high risk to 2 houses about 50 -100		
		meters from the footslope, 1 nipa hut destroyed in		
		December 2003.		
21	Luna: Upper Looc	Debris slump – in weathered sedimentary rock with		
۲٦.		steep slopes; only 2 meters from settlement.		
าา	Mabua: Durck 6			
22.	Mabua: Purok 6	Debris slump - occurred recently in weathered rocks		
22	Manager Durch E	with slopes converted to agricultural use.		
23.	Mapawa: Purok 5	Debris slide – due to very steep slopes in weathered		
		andesite rocks. Settlement is only 5 meters away.		
		Debris/earth slump – due to weathered ultramafic rocks		
	Purok 13	with recurrent landslides and very steep slopes (70 – 80		
		degrees). Highly risky to 11 houses.		
25.	Nabago: Purok 2	Debris slump – potential Landslide in weathered		
25.	Nabago: Purok 2	Debris slump – potential Landslide in weathered sedimentary rocks with very steep slopes in agricultural		

Name of Barangay/Sitio/Purok	Description of Geohazard
26. Orok: Purok 3	Potential la0ndslide – indicated by soil creep in highly
	weathered rocks, with very steep slope angle,
	endangering at least 4 houses at the base of slope.
27. Punta Bilar: Sitio Looc, Purok 4	Rockslide – in very steep (40 deg) andesite rocks. High
	risk to 4 houses about 10 to 20 meters from toe of slide
28. Punta Bilar: Sitio Bombels Purok 1	Debris slide – in fractured rocks with very steep slopes,
	with landslide scarp about 15m by 30m.
29. Quezon: (Behind NFA)	Debris slide – in highly weathered sedimentary rocks
	with very steep slopes. Highly risky to settlement only 1
	meters away.
30. Rizal: Sitio Balibayon and	Debris slump – recent landslide area, with very steep
Kinabutan 2	slopes, highly weathered rocks; cocoland; with the
	barangay at the base of slope.
31. Rizal: Sitio Lumaban	Debris slump – very steep slopes in fractured rocks
	traversed by a creek; cocoland with thick (3m) topsoil
	layer.
32. Rizal: Purok Tumanday, Purok 1	Debris slump – found in fractured and weathered
	andesite rocks with 0.5 meters thick soil and very steep
	slope angle (30 [°]). One (1) household is highly at risk.
33. Rizal: Sitio Kinabutan	Debris slump – in fractured and weathered andesite
	rocks, with $1 - 3$ meters thick soil layer and very steep
	slopes (30 – 35 degrees). Highly risky to 1 house, locate
	15 meters from toe of landslide.
34. San Roque: Purok 4	Rock fall – in very steep limestone slopes planted to
54. Sall Roque. Pulok 4	coconuts. About 10 to 20 meters from settlement area
DE Car Danuar Dunah 1	Could be triggered by an earthquake.
35. San Roque: Purok 1	Debris slide – in weathered Andesite rocks with very
	steep slopes (58%) with one-meter thick soil layer.
	Settlement is only 20 meters away. Last Dec 19, 2003, 8
	houses were destroyed with 1 fatality.
36. Taft: Purok Calipayan	Debris slump – in weathered terrace gravel with steep
	slopes; high risk to several houses.
37. Togbongon: Sitio Songkoy	Debris slump and flashflood – recent slide area;
	cocoland with very steep slopes and weathered rocks;
	with limited valley width.
38. Togbongon: Sitio Ulawan	Debris slump – recent slide area; undercut by Ulawan
	creek; with very steep slopes.
39. Trinidad: Km 14	Debris slide, Incipient landslides - uphill from the
	PACEMCO quarry. Situation is highly risky to houses
	along the National Highway.
40. Washington: Purok Pagasa	Debris slide – in weathered Terrace gravel rock
/Candaba Complex (beside Caraga	formation with very steep to vertical cliff; extremely
Hospital and along Rizal Street)	risky to all houses and business establishments located
	on the slopes and at the base of slope of the hill.
41. Baybay: Sitio Panumbayon	Earthslide – in moderately fractured sedimentary rocks
	highly risky to houses, 10 to 15 meters away.
42. Bitaugan: Purok 2 and 3	Landslide – highly potential due to weathered Ultramaf
	rocks with thick soil cover (2-3 m) and very steep slopes
	(58-119%) and high relief. Highly risky to purok
	settlement in a narrow coastal plain at the footslope.
13. Cagutsan: Purok 3	Debris slump – in Ultramafic rocks with 0.5 to 1.0m
	topsoil, critical to houses at the base of the hill.
14. Libuac: Purok 3 and 4	Landslide – Potential hazard in very steep mountain
	slopes with sandstone bedrock; School building is 1
	meter from the footslope and the water reservoir only
	15m away.
45. Manjagao: Purok 4	Debris slump – in highly weathered ultramafic rocks wit
	1-3 meters topsoil and very steep slopes 50 meters high

Name of Barangay/Sitio/Purok	Description of Geohazard		
	very risky to houses at the base of slope, confined in a		
	narrow coastal plain.		
46. San Jose: Purok 4	Landslide – in highly weathered ultramafics rocks with		
	2m topsoil, steep gradient (47- 58%), with high school		
	building constructed at the upper slopes.		
47. Talisay: East of Mining 5 area	Earthflow – in intensely weathered ultramafic rocks with		
	thick soil cover (2-5 meters), cut by a gully from 0– 100		
	meters high on the slopes. 1 house was buried at the		
	small coastal plain at the base of slope on Dec 19, 2003,		
	causing 2 casualties.

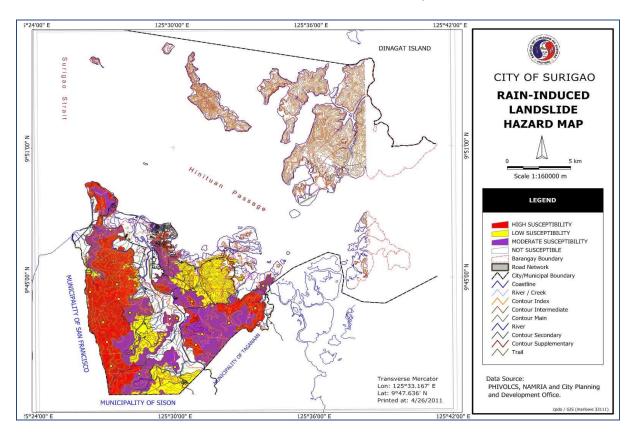

Figure 2.12 Rain-Induced Landslide Hazard Map

2.9.2 River Bank Scouring/Siltation

One of the critical geo-hazards affecting some parts of Surigao City was found to be riverbank scouring, not only along the main Surigao River but also along its tributaries, and along other, albeit smaller rivers/creeks. The main cause of riverbank scouring hazard is the natural meandering process of river geomorphic development.

This hazard affects houses, roads, bridges, other infrastructures and farmlands. One of the consequential hazards of riverbank scouring along the Surigao River is siltation of the farmlands on the same side of the channel. Apparently, the river currently breaks up the portion of the riverbank and carries the materials outward unto the floodplain. Several hectares of rice-fields have been destroyed by this process. Areas affected by critical riverbank scouring are given in *Table 2.14*.

Table 2.14 Geologically Riverbank Scouring-Prone Areas Surigao City

Name of Barangay/Sitio/Purok	Description of Geo-hazard		
1. Anomar: Purok 1	Riverbank scouring - Advanced stage scouring along the eastern bank of the outer curve of Sangay River critical to 1 house and potentially critical to 17 houses.		
2. Bonifacio: Purok 1A, Km. 6	River scouring - potential to damage the National Highway, earth slump already occurred at the river bank due to basal scouring.		
3. Mat-i: Sitio Hubasan, Purok 9	Riverbank scouring - due to proximity to the Hubasan River. One house along east bank is critically affected.		
4. Capalayan:	Riverbank scouring - additional hazard in Purok 2 flooding due to proximity to the river, one house affected.		

Source: Mines and Geosciences Bureau, DENR, Caraga Region

2.9.3 Seismic Zones

Surigao City is prone to earthquakes since it has two (2) fault lines run parallel along the boundary of the Municipality of San Francisco and Surigao City and traversing along Arellano District up to the Municipality of Tagana-an. These are the fault zones identified by the PHILVOLCS and the survey conducted by the United Nations Revolving Funds for Natural Exploration (UNRFNFRE). Geologic formation along these fault zones shows no predominant rock formation but is mostly made up of recent alluvial and beach deposits, clay, gravel and conglomerates of mud and siltstones (*Figure 2.13*).

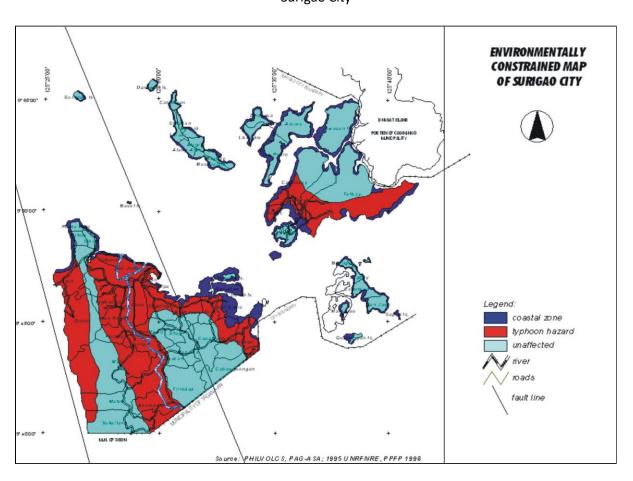

Figure 2.13 Environmentally Constrained Map Surigao City

CHAPTER III POPULATION AND SOCIAL PROFILE

3.1 SOCIAL COMPOSITION AND CHARACTERISTICS

The Surigaonon is rich of Malay stock with sprinkling of Chinese, Japanese and Arab bloods. Glints of European and American influences are also evident. The people of Surigao are generally peace-loving, gentle and non-temperamental.

3.2 POPULATION SIZE AND GROWTH RATE

3.2.1 Population Size

During the Census of Population (PopCen 2020) conducted by Philippine Statistics Authority (PSA) on May 1, 2020, the City's population reached 171,107. As to population size by barangay, Barangay Washington accounted for the largest population, followed by Barangays Taft, San Juan, Luna, Canlanipa and Rizal (*Table 3.1*).

3.4 MIGRATION DATA

The high population growth rates of the city in the censal period 2010-2015 vis-à-vis the relatively unchanged levels of its crude birth and death rates presuppose a certain degree of in-migration. Such analysis is further bolstered by the fact that the increase occurred even though some of its barangays, especially those in the islands, exhibited negative growth levels for the said period.

Using mathematical derivation, *Table 4* shows that the increase in population due to natural factors such as births and deaths at 6,234 is less than the total population increase of 13,597. Hence, it can be surmised that the difference of 7,363 is the net migration of the city for the period 2010-2015, representing about 4.78% of the city's total population.

Table 3.4 Migration Data (Derived) Surigao City, 2010-2015

Population Data, 2015	154,137
Population Data, 2010	140,540
Population increase (P ₁)	13,597
No. of Births, 2015	7,849
No. of Deaths, 2015	1,615

3.5 POPULATION DENSITY

3.5.1 Population Density

Surigao City's population density in 2000 were 483 persons per square kilometer and in 2007 were 539 persons per square kilometer and in 2010 were 573 persons per square kilometer based on NSO census. During the 2015 Census of Population (POPCEN 2015), it increased to 628 persons per square kilometer, still higher than the national average of 338 persons per square kilometer (*Table 3.5*).

The most densely populated barangays remain those located in the urban areas. The difference however on the 2015 census showed that Brgy. San Juan situated in the west side coast of the central business district is now the most densely populated, overtaking the poblacion barangays of Taft and Washington.

Source: CPDO Projections

Based on the population density for the year 2020, of the city's 54 barangays, San Juan was the most densely populated with 36,335 persons per square kilometer of land, followed by Canlanipa with 27,991 persons per square kilometer. Completing the top five most densely populated barangays were: Taft (21,799 persons per square kilometer); Washington (14,122 persons per square kilometer); and Sidlakan (2,623 persons per square kilometer).

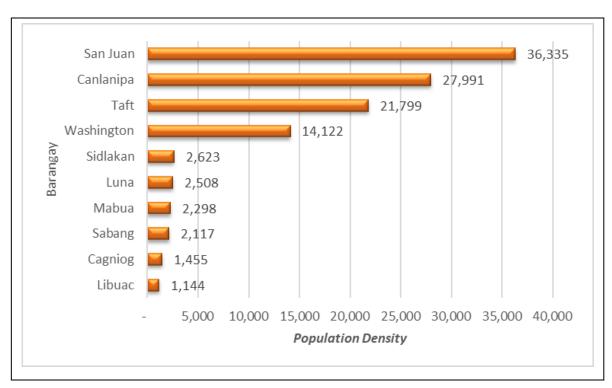

Figure 3.2 Top Ten Most Densely Populated Barangay 2020 Nonoc was the most sparsely populated barangay in the city in 2020 with only 45 persons residing for every square kilometer of land. It was followed by Talisay with 46 persons per square kilometer, Cantiasay with 64 persons per square kilometer, Danao with 73 residents per square kilometer, Serna with 98 persons per square kilometer, Cagutsan 103 persons per square kilometer, San Pedro with 183 persons per square kilometer, and Sukailang with 188 persons per square kilometer. Rounding up the ten most sparsely populated barangays in the city are barangays Mapawa (189 persons per square kilometer) and Baybay (217 persons per square kilometer).

3.6.2 Household Population 10 Years Old and Over (*Total population less the number of people living in group quarters*)

NSO's 2010 Census of Population and Housing (CPH) shows that the household population 10 years old and over is 110,032 for both sexes and marital status (*Table 3.8*). This household population is the total population less the number of people living in group quarters (e.g. nursery homes, jails, etc.)

3.7 URBAN-RURAL DISTRIBUTION

When there is development, urbanization takes place and when there is an economic opportunity in an area, in-migration occurs, thus, resulting to the increasing density of the population. During the 2010 census, there was a decreased of percentage of urbanization from 50% in 2007 to 49% in 2010. Urban population was 69,223 or 49% of the city's population of 140,540, while rural population was 71,317 or 51% of the city's total population (*Table 3.10*).

3.8 TEMPO OF URBANIZATION

In 2010 censal year, it is observed that there was a decreasing growth rate in the urban population with 1.84%. This resulted in -0.56% tempo or rate of urbanization between two censal years. Rural population growth rate was 2.39% (*Table 3.10*).

Voor	Population			% of Urbanization	Growth	Rate (%)	Tempo of	
Year	Urban	Rural	Total		Urban	Rural	Urbanization	
1995	56,352	48,557	104,909	54%	2.81	-0.95	3.76	
2000	61,312	57,222	118,534	52%	1.76	3.57	-1.81	
2007	65,610	66,541	132,151	50%	1.00	2.33	-1.33	
2010	69,223	71,317	140,540	49%	1.84	2.39	-0.56

3.10 DEPENDENCY RATIO

Dependency ratio decreased to 59 dependents per 100 persons in the working age group. In 2010, the young dependents (0 to 14 years old) comprised 32.55% of the household population while the old dependents (65 years old and over) posted a share of 4.68%. The working-age population (15 to 64 years old) accounted for the remaining 62.78%.

The overall dependency ratio was 59, which indicates that for every 100 working-age population, there were about 59 dependents (52 young dependents and seven old dependents). This ratio is lower than the dependency ratio in 2000, which was recorded at 71 dependents per 100 working-age population (64 young dependents and seven old dependents).

3.11 ETHNICITY

Sitio Tagbasingan, Brgy. Mat-i is home of the Mamanwa cultural community. *Table 3.12* shows the comparative population of Mamanwa from 1998 to 2010 based on the NCIP data. It shows also that Badjao numbered to 40 which moved in to Surigao City.

b. Leading Causes of Morbidity

As of 2020, the top common diseases consulted at the health centers including hospitals are Acute Respiratory Infection (ARI), Skin Diseases, Wounds All Types and Urinary Tract Infection.

Table 3.17 shows the trend for leading causes of morbidity for 2019 and 2020.

Table 3.17 Ten Leading Causes of Morbidity, All Ages Surigao City, 2019-2020

c. Leading Causes of Mortality

The consistent leading cause of mortality in the city is Cardiovascular disease. Other top leading causes are Cancer, Cerebrovascular Accident/Stroke, Myocardial Infarction, Pneumonia, Respiratory Failure, Cardiomyopathy and Septic Shock. It has been observed that Pneumonia is the only communicable disease that remain in the top 10 leading causes of mortality in 2020

Table 3.18 shows the trend for leading causes of mortality for 2019-2020.

d. Other Health Statistical Data

i. Total Number of Births

Surigao City registered a total of 5,334 births in 2020, wherein 2,522 are females and 2,812 are males (*Table 3.19*).

Table 3.19 Number of Birth Registered Surigao City, 2020

iii. Maternal Mortality Rate and Causes

The Maternal Mortality Rate (MMR) in 2020 was down to 0. While there were four (4) Maternal Deaths reported during the year, these were not counted in the statistics since these were considered as indirect obstetric deaths (or indirect maternal deaths) or those maternal deaths resulting from previous existing disease or disease that developed during pregnancy and not due to direct obstetric causes.

Table 3.21 Comparative Maternal Mortality Rate Surigao City, 2019-2020

2019		2020			
No.	Rate	No.	Rate		
5 Per 1,000 livebirth	1.78	0	0		

Source: City Health Office, Surigao City

In 2019, the leading causes for maternal deaths were Hemorrhagic Shock, Cardiopulmonary Arrest secondary to Hypovolemic Shock, Hypovolemic Shock secondary to Post Partum Hemorrhage, Cardiopulmonary Arrest secondary to Septic Shock and Cardiomyopathy Tachycardia induced PU Term. (*Table 3.22*).

iv. Total Number of Neonatal Deaths (1-28 days old)

The Neo-Natal Mortality Rate (or the probability of dying during the first 28 days of life, expressed per 1,000 live births) increased from 3.20 with nine (9) deaths in 2019 to 6.20 with 16 deaths in 2020.

Table 3.23 Comparative Neonatal Mortality Rate Surigao City, 2019-2020

v. Crude Birth Rate

In 2020, the City of Surigao registered a Crude Birth Rate (CBR) of 15.36 with 2,580 live Births (1,341 male; 1,239 female). This reflected a decrease of almost two (2) percentage points from the 2019 CBR of 17 with 2,813 live births. The CBR means that for every 1,000 population, there were 15 newborns during the year. (*Table 3.25*).

Table 3.25 Comparative Crude Birth Rate Surigao City, 2019-2020

viii. Under Five Mortality Rate

Similarly, the Underfive mortality Rate also demonstrated an increasing trend from 8.80 with 25 deaths in 2018 to 9.24 in 2019 with 26 deaths thence 15.12 with 39 deaths in 2020.

The most common causes of mortality among underfive children are Neonatal Sepsis, Sepsis, IUFD, Pneumonia and Asphyxia. (*Table 3.29*).

The city is also home to the satellite law school of San Sebastian College Manila, which is the only law school in Surigao City that offers the Juris Doctor program in the Visayas and Mindanao area.

3.14.4 Housing

During the last housing census of 2015, the city has 34,572 occupied housing units. Of this number, 30,154 are single houses; 2,453 duplex structures; 1,877 multi-unit residential; 75 commercial/industrial/agricultural; 4 institutional living quarters; 2 other housing units and 7 not reported.

The city has a household to occupied housing unit ratio of 1.04 which shows that there is a shortage of housing units due to doubling of households, considering that the standard is 1:1. Also, it reveals that there are 4.0 to 5.0 household members per occupied housing unit (*Table 3.44*).

c. Occupied Housing Units by Condition (State of Repair) of the Building and Year Built

Table 3.46 shows the occupied housing units by condition or state of repair of the building and year built and Household by Type of Building – Tenure Status of the Lot according to the 2010 census of population and housing. From the table it can be discerned that of the 29,385 total occupied housing units, about 27% are already in need of some degree of repair. On the other hand, Table 3.45 shows Household by Type of Building – Tenure Status of the Lot according to the 2015 census of population and housing, which shows that about 58% of the total occupied housing units are owned while 11% are rented.

f. Subdivisions and Slum Areas

As of 2020, the city recorded a total of 26 housing subdivisions, 23 of which were privately owned, three (3) government-owned, one (1) by individual owner and one (1) by a petitioner. Total land area of the 26 subdivisions is 186,886.3291 hectares which generates parcel of lots of more or less 464,083 lots. Such are outside of the traditional residential areas in the main población, whose current status range from those that are already fully occupied, the ones on-going site development works and those that are still to be developed (*Table 3.50*).

g. Garbage Disposal

The city government through the City General Services Office (CGSO) sustained the daily garbage collection, street cleaning activities and daily maintenance of garbage equipment. In 2020, a total of 36,930,400 kgs. of residual wastes was collected, which was significantly lower compared to the recorded collected residual wastes of 43,883,500 kgs. in 2019.

In the implementation of vanguard program of the city, the Oplan Kuha Cellophane/Papel and other Recyclable Wastes Program, a total of **3,825.92** kilograms of recycled cellophane and **5,082.22** kilograms of papers, **1,777.00** kilograms of plastic bottles, **5082.90** kilograms of tin cans, **3,815.00** kilograms paper boxes/karton and **1,887.90** kilogram of used cooking oil were collected from January to December 2020.

Moreover, a total of 16,607,079.33 kgs of Residual and Recyclable wastes were dumped in the Sanitary Landfill. This was lower compared to the wastes dumped last 2019 which is 18,256,967.33. Recyclable Wastes accounted for just over 2% of the total waste collected while the residual waste accounted for 97.75 %.

3.14.5 Employment and Income

The labor force participation rate in Surigao City was increased from 60% to 68% in 2000. Employment rate was 89.9%, while unemployment rate was 10.1% (*Table 3.50*). There's still no available data for the year 2015 population of census.

3.14.8 Public Order and Safety

a. Crime and Police Force Statistics

The comparative crime statistics shown in table 3.60 for the period 2019 and 2020 indicates an increase of 207 cases in the total crime volume compared to the previous year. In parallel, the Average Monthly Crime Rate also increased from 39.99% to 143.28% per 100,000 population.

Crime Clearance Efficiency (CCE) is the percentage of cleared cases out of the total number of crime incidents. There was an increase by 8.77% or 91.68% efficiency in 2020 as compared with the same period in 2019 with an efficiency rate of 82.91%.

In the percentage of solved cases for the period in review, there was an increase by 11.87%% in the Crime Solution Efficiency from 72.85% in 2019 to 84.72% in 2020.

b. Firefighting Personnel and Facilities

The Surigao City Fire Station had a personnel strength of 76, which translated to a ratio of 1 fireman: 2,860 population. With the onset of the Covid-19 Pandemic and in adherence to its mission, the BFP performed various tasks in support and assistance to the Inter-Agency Task Force as member agency of the Response Cluster for Emerging and Re-Emerging Infectious Diseases (EREID) in order to ensure the safety of the Surigaonons against the global pandemic.

c. Jail Personnel and Facilities

Surigao City has one (1) jail facility located at Brgy. Silop, Surigao City, which is seven (7) kilometers away from the city proper. It has an area of 1,368 square meters. The jail is managed by the Bureau of Jail Management and Penology (BJMP)-Surigao City Station.

Table 3.60 shows the comparative population of inmates at the City Jail as of CY2018 and December 2020.

d. Emergency Response Services

The City Emergency Response Services (ERS) Unit, being the main operations arm of the City Disaster Risk Reduction and Management Office (CDRRMO), continued to be at the forefront in providing emergency assistance/services to medical and trauma patients and during fire emergencies, evacuation services during the occurrence of typhoons, flooding and landslides, and other medical support during the observance or hosting of special events, such as sports activities, city and barangay fiesta celebrations and other regional and national events.

In 2020, the ERS responded to a total of 5,673 emergency calls, reflecting a significant decrease of 21% compared to the previous year. This included 1,328 obstetric cases, 389 vehicular accidents (of which 82% were male victims), and 235 cardiovascular attacks hypertension (45% male and 55% female). Others included cases of stabbing, hacking and shooting incidents.

The team also provided medical transport services mostly to Caraga Regional Hospital and private hospitals and other hospitals outside of Surigao city upon request.

COVID-19 OPERATION & BALIK PROBINSYA PROGRAM:

To control the exposure of the Surigaonons from the COVID-19 virus, the CDRRMO Response Team manned the entry and exit points of the city and undertook identity profiling and health monitoring for contact tracing purposes.

In support to the Balik-Probinsya Program, the city government assisted a total of 2,384 individuals, of which 1,850 were Locally Stranded Individuals (LSI), 111 were COVID-positive and 534 were Returning Overseas Filipino (ROF).

Ocular visits were conducted in the newly established City Quarantine Facility in Barangay Bonifacio to ensure that the facility was complying with Inter-Agency Task Force (IATF) protocols. COVID-IATF Coordination meetings were conducted regularly to address issues concerning to CoVid-19 protocols and guidelines. Barangay Isolation Units were regularly disinfected to prevent the spread of the virus.

CHAPTER IV

4.1 THE PRIMARY SECTOR

4.1.1 Agricultural Crops

a. Agricultural Croplands

As of 2010 city land use, the total land area devoted to agricultural crop production is about 16,026.0 hectares or 65.33% of the city's total land area. Cocoland is the most dominant area which occupies about 11,565.0 hectares or 72.16% of the total agricultural land. Riceland occupies an area of 3,928 hectares or 24.51% of the total agricultural land. Cornland covers about 176.0 hectares or 1.10% of the agricultural lands; and the other croplands occupy about 357.0 hectares or 2.23% of the total agricultural lands. The other croplands are comprised of rootcrops such as: sweet potato, cassava, gabi and ube; vegetables and other permanent crops. (*Table 4.1*).

Table 4.1 Agricultural Crop Lands Surigao City

Types of Agricultural Cropland	Area (has.)	% to Total Agricultural Crop Land	% to Total of City's Land Area
Cocoland	11,565.0	72.16%	47.14%
Riceland	3,928.0	24.51%	16.01%
Cornland	176.0	1.10%	0.72%
Other Croplands (rootcrops, vegetables and other permanent crops	357.0	2.23%	1.46%
Total	16,026.0	100.00%	65.33%

Source: CLUP 2011-2020

Rice land is the second largest agricultural area planted especially during wet days covering an area of 3,928 hectares of which 2,468 hectares are irrigated with two (2) croppings per year and 1,460 hectares are non-irrigated with one (1) cropping per year. Meanwhile during dry season, riceland planted covered a total of 3,473 hectares of which 2,468 hectares are irrigated area and about 1,005 hectares are non-irrigated. (*Table 4.2*).

b. Crop Production

Surigao City produced various crops such as: coconut, rice or palay, corn, banana, cassava, mango, pineapple, watermelon and assorted vegetables. In 2018, coconut production was recorded at 12,983 metric tons with a harvested area of 10,113.0 hectares; in 2019, about 12,145.8 metric tons were produced with a harvested area of 10,109.5 hectares; and in 2020, coconut production was recorded at 12,336.3 metric tons in a harvested area of 10,128.3 hectares, which shows 1.6% increase in production compared against year 2019.

The rice production in 2018 was recorded at 12,386.8 metric tons with a total area planted of 3,937 hectares; in 2019, rice production was 13,402 metric tons with a total area planted of 4,089.90 hectares; and in 2020 it was recorded at 13,899.2 metric tons with a total area planted of 4,037.8 hectares. The 2020 rice production has increased by 3.7% compared against year 2019.

For corn production, about 209.2 metric tons were produced in 2018; 310 metric tons in 2019; and 338 metric tons in 2020. The 2020 corn production has increased by 9.0% compared against year 2019.

Table 4.3 shows the comparative data of agricultural crop production from CY2018 to 2020.

4.1.2 Livestock and Poultry

a. Livestock and Poultry Inventory

As of 2020, the City Veterinary Office recorded a total of 44,546 livestock and poultry population or about 24% increase compared against 2019 of 35,808. Poultry accounted for 28,723 heads; swine-8,650 heads; carabao-2,416 heads; and cattle-265 heads. (*Table 4.4*).

c. Number and Volume of Slaughtered Livestock

As shown in Table 4.6, the number of heads and the volume of animal slaughtered has an increasing trend since 2017 up to 2019, however it slightly dropped in year 2020 from 21,705 heads to 18,534 heads. A total of 17,473 heads of hogs were slaughtered in 2020 or a decrease of 13% compared in year 2019 of 20,189 heads. For cattle, about 920 heads were slaughtered or 20% decrease compared against 2019 from 1,145 heads to 920 heads. For carabao, a total of 141 heads were slaughtered or a decrease of 62% compared in 2019 from 371 heads to 141 heads.

	20	17	20	18	20	19	20	20

4.1.3 Fisheries

a. Fish Production

Surigao City's total fishery production in 2019 was about 4,857.22 metric tons. This is about 15% decrease compared against year 2018 of 5,722.84 metric tons. In year 2020, fish production volume also dropped by 8.6% from 4,857.22 m.t. in 2019 to 4,441.09 m.t. in 2020.

In 2019, the commercial fishery production has decreased by 17.2% from 644.54 m.t. in 2018 to 533.81 m.t., while in 2020, the commercial fishery production slightly dropped by 6.6% from 533.81 m.t. in 2019 to 498.63 m.t. in 2020. The marine municipal production also decreased in 2019 by 16% from 4,823.83 m.t. in 2018 to 4,072.52 m.t. in 2019; while in year 2020, the marine municipal production also decreased by 8.6% from 4,072.52 m.t. in 2019 to 3,722.61 m.t. in 2020. Meanwhile, the municipal inland production in year 2020 has dropped by 19% from 141.49 m.t. in 2019 to 115.15 m.t. in 2020.

The aquaculture production in 2019 has increased by a slight 3.4% from 106.32 m.t. in 2018 to 109.90 m.t., while in 2020 it slightly dropped by 5% from 109.90 m.t. in 2019 to 104.70 m.t. in 2020.

Table 4.7 shows the comparative fishery production between CY 2018 and 2020.

Table 4.7Comparative Data on Fish ProductionSurigao City, 2018-2020

b. Dominant Marine Species

In 2020, the dominant marine species in Surigao del Norte particularly in commercial fisheries has a total volume of 3,222.72 metric tons, wherein the species caught were the following: Skipjack (Gulyasan); Yellow Fin Tuna (Bariles); Frigate Tuna (Tulingan); Indian Sardines (Tamban); Fimbriated Sardines (Tunsoy); Round Scad (Galunggong), Big-eyed Scad (Matangbaka); and Eastern Little Tuna (Bonito). For the marine municipal fisheries, the most dominant specie that were caught were the following: Skipjack (Gulyasan); Big-eyed Scad (Matangbaka); Indian Sardines (Tamban); Frigate Tuna (Tulingan); Round Scad (Galunggong); and Fimbriated Sardines (Tunsoy). Table 4.8 shows the data on dominant marine species caught in Surigao del Norte.

Table 4.8Data on Dominant Marine Species(Commercial Fisheries & Marine Municipal Fisheries)Surigao del Norte, 2020

Species Caught	Commercial Fisheries (m.t.)	Marine Municipal Fisheries (m.t.)
Anchovies (Dilis)	97.39	652.47

4.1.5 Forestry

a. **Production Forest**

The adopted strategy for the use of forest lands for production purposes generally is only on the basis of the area's topography and limiting such use for classified forest below 50% slopes. There is however no clear-cut integrated plan or approved/on-going major development projects that have been implemented on these areas. Marginal uses have been noted in these areas and these are mostly confined to gathering of firewood for domestic and commercial use.

b. Forest Parks

Recognizing the threat to ecology and its impact in terms of human health and welfare requires the establishment of permanent barangay forest parks. As such, it would greatly prevent any further erosion and restore the denuded areas. The city's barangay forest parks are as follows; i) Brgy. Canlanipa, ii) Barangay Zaragosa and, iii) Barangay Catadman (Table 4.11).

Table 4.11						
Barangay Forest Parks						
Surigao City, 2020						

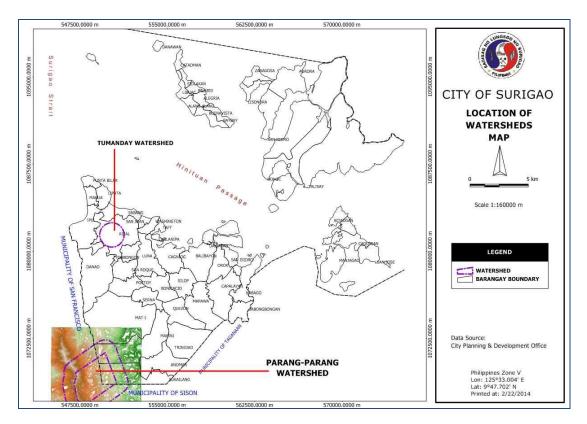

Name	Location	Area Covered	Proclamation Order
1. Canlanipa Forest Park	Barangay Canlanipa	1.7823 Has.	Administrative Order No. 09, Series of 1989
2. Zaragosa Forest Park	Barangay Zaragosa	1.2844 Has.	Administrative Order No. 18, Series of 1989
3. Catadman Forest Park	Barangay Catadman	1.0157 Has.	Administrative Order No. 13, Series of 1989

Source: DENR, Surigao City

c. Protection and Conservation Areas

Protected forests which constitute watershed resource reserves located in the uplands of Parang-parang in Mat-i-Mabini area and another one in Sitio Lumaban, Rizal are among the primary areas zoned for protection and preservation, given its past and current utilization as the source of potable water in the urban areas. These are non-negotiable areas where uses shall only be confined to its intended use.

Figure 4.1 Location Map of the Watershed Areas

Other conservation areas that are reflected in the current land use plan with the primary intent of maintaining environmental integrity are inland water bodies, swamps and fishpond areas, mangrove forests and areas with more than 50% slopes.

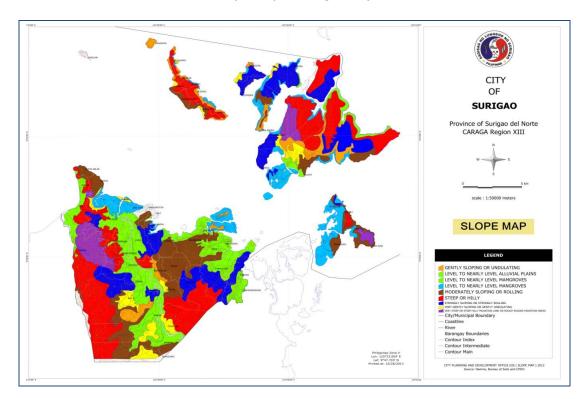

Figure 4.2 Slope Map of Surigao City

4.1.6. Agricultural Support Facilities

a. Production Support Facilities

i. Irrigation Systems

Record shows that there was a total of 864.0 hectares covered as actual irrigated area for Surigao City in the different barangays. These irrigation facilities were NIA assisted. Barangays Capalayan and Serna were recorded the largest irrigated areas of 120.0 hectares, followed by Barangay Cabongbongan (*Table 4.12*).

 Table 4.12

ii. Pre and Post-Harvest Machineries/Equipment

The city recorded the following pre and post-harvest machineries/equipment distributed and installed in the barangays, to wit: 124 turtles, 122 rice threshers, 13, rice mills, 15 warehouses, 67 shallow tube wells, four (4) pump irrigation in open source, 11 hand tractors and other support facilities (*Table 4.13*).

b. Extension Services

The City Government through the City Agriculture Office sustained the implementation of the "Cluster Area Integrated Development Approach (CAIDA) as its strategy in delivering its products and services to the barangays. This CAIDA was an enhancement of the CAO's deployment of Agricultural Extension Workers (AEW) in the field which is now being directly supervised by the in-charge of the Operations Division.

In 2020, the AEWs collectively rendered numerous technical services that benefitted a considerable number of farmers. (*Table 4.15*).

4.2 SECONDARY SECTOR

4.2.1 Manufacturing

In 2020, the number of registered manufacturing firms in the city totaled to 99 which ranges from light to medium industrial intensities. (*Table 4.16*).

Table 4.16 Comparative Number of Registered Manufacturing Firms Surigao City; 2018-2020

4.2.4 Import/Export Commodity

As of CY-2020, Bureau of Customs' revenue collection performance in Surigao City Sub-Port was about 70.64% short from the actual target. It collected an actual cash of only Php3,887,985.16 against the actual target of Php5,503,669.24. This is about 56% decrease compared against CY-2019 actual cash collection performance of Php8,831,525.00. Table 4.19 shows the comparative data of BOC's revenue collection between 2018 and 2020.

Table 4.19 Comparative Data on Revenue Collection Surigao City Sub-Port; 2018-2020

4.2.5 Electricity, Gas and Water

a. Electricity

Power supply in the city is provided by the National Power Corporation (NPC) whose main power source is the Iligan Power Grid, with a distance of more or less 500 kilometers from the city. It is distributed locally by the Surigao del Norte Electric Cooperative (SURNECO).

As of 2020, the Surigao del Norte Electric Cooperative (SURNECO) energized the 53 barangays of the city. There was a decrease of 6.37% or 41,868 actual connections compared to 44,715 in 2019 (*Table 4.21*).

4.3.3 Transportation and Communications

a. Air Transportation

There is only one (1) airline serving the city and the neighboring municipalities. It was recalled that Surigao City was hit by 6.7 magnitude earthquake last January 20, 2017 and Surigao City Airport runway was destroyed by the said earthquake. The Cebu Pacific Air is serving the flight from Surigao-Cebu and vice-versa daily, from Surigao-Manila and vice versa every Thursday and Sunday. The fare varies depending on type of carrier, date of booking and flight schedule. Early booking usually has low fare rates. Promo rates are also offered from time to time by airline companies (*Table 4.34*).

Table 4.34 Air Fare

Surigao City, 2020

Destination	Low (PhP/Person)	High (PhP/Person)
Surigao to Cebu	2,684.28	5,585.08

Source: Cost of Doing Business, DTI, Surigao City

Surigao City Airport is classified as Secondary Airport (Class B) with a dimension of 1,707 meters long and 30 meters wide. The apron/tarmac has an area of 1.2 hectares which can cater 737 planes.

From January to December 2020, records of Civil Aviation Authority of the Philippines (CAAP) shows that there are a total of 69 in-flights for Cebu Pacific with 3,487 passengers coming to Surigao City and a total of 2,343 outgoing passengers. The commercial flight of the said airline ended in March 2020 due to COVID-19.

Table 4.35Number of Flight, Passenger and Cargo Statistics by MonthJanuary – December 2020

Source: CAAP, Surigao City

b. Sea Transportation

In the sea transportation infrastructure support, the city has two (2) major ports of entry: the Surigao City Base Port located at Barangay Taft as the primary port and Lipata Ferry Terminal for the overland transport transfer services at Barangay Lipata, this city.

The base port has an operational berth length of 529.00 meters and presently used by four (4) cargo passenger ships, two (2) are servicing Surigao-Maasin-Cebu route; one (1) Cebu – Surigao – Nasipit course and one (1) big cargo/ passenger (Super Ferry) boat plying Surigao-Nasipit-Bacolod- Manila-Cebu- Surigao once in a week; four (4) cargo/passenger boats with its route Surigao-Dapa and vice-versa and 10 cargo/passenger boats servicing San Jose – Surigao –San Jose within the province.

Complementing the two (2) existing ports operations are three (3) privately owned subports: the Philippine Nickel Company Port (PHILNICO) in Nonoc Island, presently has no port operations awaiting the reactivation and full rehabilitation of the Nickel mines. The Pacific Cement Company Port (PACEMCO) in Barangay Washington, this city; the Hinatuan Mining Company Port in Hinatuan Island. Aside from these sub-ports, the city is utilizing the Bilang-bilang Bay, Asiatic Area, Pantalan I and II, and some island barangay ports for docking/berthing for small watercrafts (*Table 4.36*).

Port Name	Location	Classification

c. Land Transportation

The city has a two (2)-hectare Integrated Bus and Jeepney Terminal located at kilometer 4, Barangay Luna. The existing facility is consisting of a 2-storey terminal building with 56 stalls for commercial concessions; four (4) public comfort rooms; eight (8) ticket booths; ten (10) bays/berths for buses; 24-bays/berths for jeepneys with adequate space for parking; and several space for offices, conference rooms and with two rooms utilized for lodging at the second floor.

The terminal was completed in 1997 and started operations in 1998. The frequency of trips per month recorded an average of 3,157 trips for Buses, 414 trips for Jeepneys, 8,512 trips for Multicabs and 3,612 trips for Vans in 2019. Public buses have four (4) major routes leading to Davao, Cagayan de Oro City, Butuan City and Tandag; and vice versa; towards Leyte, Samar, Bicol Region and Greater Manila Area via ferryboat through the Lipata Ferry Terminal.

Some jeepneys are plying the routes leading to the city's barangays and neighboring municipalities while multi-cabs are servicing the routes from the city proper to terminal and vice versa, city barangays as well and several neighboring municipalities.

Table 4.40 shows a comparative data in the number of trips for buses, jeepneys and multicabs in 2019 and 2020; while the trips of vans for hire continue to rise during this period. However, the existing transportation services still can cope to serve the riding public in all routes.

d. Communication and Forwarding Services

There are two (2) mobile phone companies operating in the city, namely: **SMART and GLOBE** taking the lead in providing national and global communication access. Cell site towers of SMART are located at Capitol Hills, Brgy. Washington and at San Nicolas Street at the top of Bohol Enterprises, Brgy. Washington; while the GLOBE tower is located at Barangay Luna and Barangay Mabua.

In recent years, Philippine Postal Corporation thrived to sustain operations in letters/package receiving and dispatch with its co-players in the courier services viz; DHL, JRS, 2GO, Ninja Van, FastPak Services, J&T Express, Quad X, Intrigo and the upgraded LBC services.

The city is served with three (3) AM Radio Stations and three (3) FM Radio Stations.

The city is also served with three (3) TV relay stations: ABS-CBN Channel 2 & 23 and GMA-7 & GMA News Channels; and one (1) Cable TV services with more than 36 channels available and four (4) internet service providers.

4.3.5 Tourism

a. TOURIST ARRIVALS

a.1 Domestic and Foreign Tourist Arrivals

Tourist arrivals for CY-2020 registered a decline of 83.37% compared against CY-2019 from 312,195 to a total of 51,908 domestic and foreign tourists. The decrease was attributed by the global health crisis caused by the COVID-19 pandemic.

The domestic tourist arrivals have decreased by a huge 83.33% from 297,956 in 2019 to 49,649 in 2020. Also, the foreign tourist arrivals have decreased by 83.89% from 14,239 in 2019 down to 2,294 in 2020. Table 4.43 shows the comparative data on tourist arrivals by country of residence between CY-2016 and CY-2020.

a.2 Top Foreign Tourists Arrivals

With the restrictions of international travel due to Covid-19, foreign market was expected to decline. Arrivals from United States of America ranked first followed by Australia, China, United Kingdom and Germany, respectively. Table 4.44 shows the Comparative Top Ten Foreign Markets from CY-2018 to 2020.

a.3 Monthly Tourist Arrivals

The monthly statistical data showed that before the implementation of the General Community Quarantine (GCQ) on March 2020 due to Covid-19, the months of January and February posted the highest monthly tourist arrivals. The months of March to December 2020 posted an average of negative 95% of tourist arrivals against 2019. Table 4.45 shows the comparative data on monthly tourist arrivals from CY-2016 and CY-2020.

Table 4.45

b. ROOM SUPPLY & NUMBER OF BEDS

The recorded total number of rooms has decreased by 1.22% from 1,227 in 2019 to 1,212 in 2020 due to the closure of some accommodation establishments. However, the total number of beds has increased by 6.85% from 3,036 in 2019 to in 2020. The increase was due to the re-opening of Grove Garden Resort now Kandimo Resort and the new opening of La Isla Resort, both in Brgy. Day asan.

During the 3rd to 4th quarter of 2020, only 29 accommodation establishments in the city were issued with provisional certificate to operate by the Department of Tourism operating on a 50% capacity and mandatory health protocols were strictly implemented.

Table 4.46 shows the comparative data on room supply with number of beds per accommodation establishments from CY-2016 to 2020.

e. TOURISM RECEIPTS

The impact of the tourism industry on the local economy was evidenced by the tourism receipts, which indicates all travel related expenditures of a tourist.

With the occurrence of COVID-19 global pandemic, the estimated tourism receipts in 2020 was pegged at Php311,658,000.00. This is about 67% low compared against CY-2019 of Php936,585,000.00. The average daily expenditure per tourist is pegged at Php3,000 multiplied by the total number of tourists which is 51,943 and the average length of stay which is 2 nights.

f. ANNUAL EVENTS AND FESTIVALS

- <u>Suroy Sa Surigao</u>: Domestic Tourism Program designed to rediscover the city's various tourist attractions. Aimed at providing the guest exposure to the tourism sites of the city, to solicit objective assessments and endorsement and to document the tourism product of the city. The tour focused on the exotic, natural and historical attractions of the city.
- National Arts Month Celebration (Month of February): National Arts Month is celebrated every month of February pursuant to Presidential Proclamation No. 683 declared in the year 1991. Various activities were conducted for this celebration, such as:
 - Reading Hub/Center for Surigaonon Literature and Culture Handicrafts Display;
 - Culture, Arts and History Quiz Bowl;
 - Hampang Surigaonon a traditional Surigaonon Games likes Kadang-Kadang, Sudsud, Takyang, Lukso sako, Luawt-luat, Daub-dajang and Dangaw-dangaw;
 - Fun Run for Love Dyagan para sa Gugma " I Love Surigao" fun run;
 - Sadjaw Kanta Cultural Show;
 - Museum Tours;
- <u>National Heritage Month Celebration (Month of May)</u>: The Celebration aims to increase public consciousness on the value of preserving cultural heritage of the Surigaonon's. Feature information on heritage sites, structures, landmarks and urged the public to be one with the government in pursuing and protecting these sites. Showcase talents and arts of Surigaonons through various presentation and performances.
- <u>Sakay-Sakay Abayan Festival (Month of June)</u>: This event is a procession at sea in honor of the patroness of good voyage Virgen de la Paz y Buen Viaje. This parochial event is supported by the City Tourism Office to promote religiosity and as an expression of thanksgiving for the safe travel of tourists, guests and residents of Surigao City.
- <u>International Dragon Boat Summer Festival</u>: Surigao City is the first ever City in Mindanao to host an international dragon boat event. This sports tourism event, advocating friendly competition dedicated to forging friendship and pursuing peace.

In 2019, a total of 65 international racers from Dongguan-China, Shenzhen International, and Guangzhou-China participated the race, and more than 800 racers from the different teams within the country, from Davao, Cebu, Boracay, Tacloban, Butuan, Cagayan de Oro, Iligan, Samal Island, Surigao de Sur and Surigao City's very own Bugsay Marajao.

- <u>Bonok-Bonok Maradjaw Karadjaw Festival</u>: Bonok-Bonok Maradjaw Karadjaw Festival is an annual thanksgiving festivity in honor of the Surigao City's patron saint Senior San Nicolas de Tolentino. Surigaonons had already adopted the "Bonok-Bonok Maradjaw Karadjaw Festival" as a reflection of Surigao City's rich cultural heritage, held every 9th day of September in celebration of the city's Fiesta.
- <u>Tilaw Food Festival and Exhibits (Month of August)</u>: Tilaw Food Festival is a culinary exhibit showcasing live cooking competition on Surigaonon Dish.

- National Tourism Week Celebration and World Tourism Day (Month of September): This event is an annual celebration to foster awareness among the local community on the importance of tourism and to give recognition to tourism enterprises/ accommodation establishments in recognition of outstanding business performances that played a significant role in the promotion of the city's tourism industry. The tourism week celebration is by virtue of Proclamation No. 894 signed on October 3, 1996 by then President Fidel V. Ramos. It also coincides with the annual observance of the World Tourism Day every September 27 of the year as declared by the World Tourism Organization and Proclamation No. 1942 signed in 1980.
- <u>Search for Outstanding BOSS Barangay</u>: The BOSS Project is about **Beautification and** Cleanliness; Opportunities for Food Security; Services-Health and Social and Support for Tourism. This was launched by the City Government with the following objectives:
 - To give inspiration and challenge to all the 54 Barangays of the City so that they will continue to give importance on the protection of the environment
 - To look for outstanding Barangays who advocates the following exemplary qualities:
 - a. Natural resources management, maintaining beautifications and cleanliness using their own resources
 - b. Sustainable food production program
 - c. Optimum Health Care and Social services
 - d. Active Tourism and cultural programs, activities and events.
 - To inspire Barangay Officials and the community to be better public servants and to implement best practices, which could become a Tourism asset of the City
 - Instill "PRIDE of PLACE" in the individual residents, thus improve the appearance of Barangays in order to create models for Barangay Development
- <u>Commemoration of the Historic Battle of Surigao Strait (October 23-25)</u>: The Battle of Surigao Strait was celebrated to commemorate the historic naval battle during World War II. Various activities highlighted the celebration with the traditional pre-dawn memorial service; honoring the veterans; film showing; wreath laying at the Japanese Cremation Site; floral offering at the sea. This activity will be attended by foreign nationals representing the countries of the United States of America, Australia and Japan.
- Light-Up-A-Tree/Festival of Lights (Month of December): The Light-up-a-tree or the festival of lights becomes a tradition of the city during the Christmas Season. This event showcases the act of kindness of Surigaonons, various companies, non-government organization, associations, offices, academe, business establishments and private individuals by sponsoring the Christmas lights and decors and decorated the trees and structures at the City Hall Compound and the Luneta Park. The donors of the Christmas Lights and Decors were given Certificate of Appreciation during the light-up ceremony.
- **Painit Sa Pasko:** Every December 16-24 of every year during the Misa de Gallo, the Luneta Park is flocked by mass goers to buy and taste Surigao's native delicacies.

CHAPTER V INFRASTRUCTURE/UTILITIES/FACILITIES

5.1 ECONOMIC SUPPORT

5.1.1 Roads

An inventory of existing roads in the city shows that there is a total road length of 178.9391 kilometers as of 2020. During the inventory, there is a total of 66.7946 kilometers for concrete roads, 84.3664 kilometers for gravel and 27.776 kilometers for earth road (*Table 5.1*).

5.1.2 Bridges

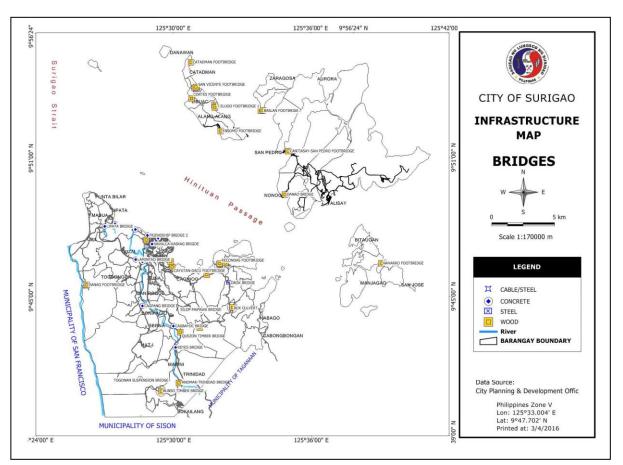

There are eighteen (18) Reinforced Concrete Deck Girder (RCDG) bridges in the mainland of which two (2) Reinforced Concrete Box Culverts (RCCP) in Quezon – Mapawa and Togonan areas are assigned by DPWH to this category on bridges and one (1) lone steel bridge is located in Barangay Orok (*Table 5.2*). Moreover, there are 22 timber bridges in the mainland and island areas where the longest is found in Nonoc Island linking Hanigad Island with 438 meters in length and overall numbers of wood/foot bridges add up to 31. Total bridges combined length is 2,218.00 lineal meters.

5.1.3 Irrigation Systems

In 2020, eight (8) irrigation systems were given a budget allocation of Php12,371,729.00. The actual construction and completion of these irrigation systems were undertaken by contract. Table 5.3 shows the status of the irrigation system projects in 2020.

Table 5.3
Locally-Funded Construction/Repair/Rehabilitation of Irrigation Systems
Surigao City, 2020

Name of Project	Budget Allocation (Php)	Remarks
Completion of Brgy. Trinidad Irrigation System (Phase II)	2,000,000.00	Completed
Completion of Brgy. Mat-i Irrigation System (Phase II)	2,000,000.00	Completed
Completion of So. Balibayon & Lumaban Rizal Irrigation System	1,650,000.00	Completed
Completion of So. Palhi and Dacuman Brgy. Ipil Irrigation System	1,550,000.00	Completed
Construction of Nabago Irrigation System	1,285,864.00	On-going
Completion of Danao Irrigation System (Phase II)	1,600,000.00	Completed
Construction of Mabini Irrigation System	1,000,000.00	Completed
Construction of Upper Sangay, Anomar Irrigation System	1,285,865.00	Completed
Total	12,371,729.00

5.1.4 Flood Control and Drainage Systems

Most of the drainage system in the city is located within the city proper/urban area accumulated to 16.841 kilometers. These are composed of Reinforced Concrete Culvert Pipes (RCCP) having 6.170 kilometers; Reinforced Concrete Box Culvert (RCBC) having 1.036 kilometers; Lined Canal having 8.205 kilometers; and 1.430 kilometers classified as Estero were from the urban area (*Table 5.4*).

Several RCCP and RCBC were converted into open canals to have an easy out flow of drainage effluents from its substandard sizes and to minimize/control clogging of canals. In Barangays Luna and Canlanipa, drainage systems were established to protect the affected area from flooding.

The city has already prepared its detailed study for a Comprehensive Drainage Master Plan as guide and/or basis for funding and implementation. The Kinabutan River Flood Control is another priority project for the City Government to push thru by rechanneling and dredging nearly one (1) kilometer of waterways to minimize the swelling of flood waters in the urban barangays of San Juan, Luna and Washington.

5.1.5 Domestic Water Supply

a. Level-III Water System

The Surigao Metropolitan Water District (SMWD) in partnership with Prime Water provides Surigao City mainland with Level-III Type of Water System that is presently serving 23 barangays, namely: Brgys. Taft, Washington, San Juan, Sabang, Lipata, Punta Bilar, Ipil, Mabua, Rizal, Luna, Bonifacio, Quezon, Trinidad, Togbongon, San Roque, Serna, Poctoy, Mat-i, Mabini, Canlanipa, Cagniog, Anomar and Sukailang. They continue to geared up and move forward in attaining its goal in providing water supply 24/7 in its service area (*Table 5.5*).

Source: Surigao Metropolitan Water District, Surigao City

Surface water remains the main source of water. It comprises 99% of the water supply. To further augment the supply of water and meet the increasing demand and address water shortage during prolonged dry weather, the district is committed to develop additional and alternative water sources. *Table 5.7* showed the details of SMWD Water Sources.

5.1.6 Electric Power Supply

Power supply in the city is provided by the National Power Corporation (NPC) whose main power source is the Iligan Power Grid, with a distance of more or less 500 kilometers from the city. It is distributed locally by the Surigao del Norte Electric Cooperative (SURNECO).

Moreover, Surigao del Norte Electric Cooperative, Inc. (SURNECO) implemented the Nationwide Intensification of Household Electrification (NIHE) project to 12 barangays, this city. 313 households benefitted the said project. Likewise, P-2 of Brgy. Mabini and Fish Cage B of Brgy. Manjagao was also energized through the Sitio Electrification Program (SEP) of National Electrification Administration (NEA).

5.1.7 Transport Facilities

a. Seaports

In Sea Transportation System, the city has two (2) major ports of entry: The Port of Surigao as the primary port and the Port of Lipata for the overland transport transfer services which are located at Barangay Taft and Lipata, respectively.

These ports are presently servicing seven (6) cargo passenger ships with routes plying Surigao-Maasin-Cebu; Surigao-Manila; three (3) fast crafts plying Surigao-Dapa and del Carmen within the province; twenty-one (21) motorized pump boats with routes servicing the island barangays/municipalities of Surigao City and Surigao del Norte; and three (3) Roll-on, Roll-off Ferry Boat plying to Leyte.

Complementing the public ports are three (3) privately owned sub-ports: the Philippine Nickel Company Port (PHILNICO) in Nonoc Island which at present has no port operations awaiting the reactivation and full rehabilitation of the Nickel mines. The Pacific Cement Company Port (PACEMCO) in Barangay Washington, this city; The Hinatuan Mining Company Port in Hinatuan Island. Aside from these sub-ports, the city is utilizing the Bilang-bilang Bay, Asiatic Area, Pantalan I and II, and some island barangay ports for docking/berthing for small watercrafts (*Table 5.10*).

Figure 5.3 Location of Seaports and Airports

b. Airports

The city has two (2) operating airports. One (1) is the main airport located at Km. 4, Brgy. Luna which is considered secondary with an airstrip of 1.536 lineal meters in length and 30 meters in width and can accommodate propeller-powered aircrafts.

The other airport is located at Nonoc Island particularly at Brgy. Nonoc. It is owned and operated by PHILNICO, a feeder type airport and private facility suited for small and medium sized planes. At present, the said airport ceased operation (*Table 5.11*).

c. Land Transport

The land transport service in Surigao City is being served with single motorcycles, tricycles, multi-cabs, jeepneys, vans and buses. The urban areas are being serviced with tricycles and multi-cabs; and the far-flung mainland barangays are also served by single motorcycles, tricycles, multi-cabs and jeepneys.

The city is also served with one (1) Integrated Bus and Jeepney Terminal located at Km. 4, Brgy. Luna, which is about two (2) hectares in area. This city government owned terminal started operations in 1998.

The existing facilities in the said terminal are: two (2) storey terminal building with 56-stalls for commercial concessions; 4-public comfort rooms; 8-ticket booths; 10 bays/berth for buses; 24-bays/berth for jeepneys with adequate space for parking; and several space for offices, conference rooms and lodging at the second floor.

This terminal served as the jump-off point of public utilities in going to and from Surigao City. The multi-cabs serviced the commuters from the city proper to terminal and vice versa, to the city's barangays and some neighboring municipalities. The Jeepneys also ply the routes leading to the city's barangays and neighboring municipalities. The buses, jeepneys and vans serviced the routes leading to the municipalities of Surigao del Sur and Butuan City of Agusan del Norte. The buses also serviced the major routes leading to Davao and Cagayan de Oro City; and vice versa towards Leyte, Samar, Bicol Region and Greater Manila Area via ferryboat at the Lipata Terminal.

As of 2020, 23,995 private vehicles and 2,566 public utility vehicles registered at the Land Transportation Office, with an increase of 7.89% compared in 2019.

5.1.8 Communication Facilities

a. Telephone/Telecommunications/Internet Providers

The city is being served with three (3) land line telephone companies, namely: Smart Broadband, Inc., PLDT and Globe Telecommunications.

There are three (3) mobile phone companies operating in the city namely, SUN Cellular SMART and GLOBE taking the lead in providing national and global communication access. Cell site towers of SMART are located at Capitol Hills, Brgy. Washington, San Nicolas Street at the top of Bohol Enterprises while the GLOBE is located at Barangay Luna and Barangay Mabua. Innove (formerly Bayantel) also serve internet access in the locality with its backbone tower located at Supera bulding while SUN cellular tower is located at Barangay Luna and Amat Streets, Barangay Taft.

The city is also served with three internet service providers, and these are the following: Bayan Telecommunications (now merged with Globe), PLDT and Smart Broadband, Inc.

b. Post Office

Mail services in the city are provided by the Philippine Postal Corporation with the main office at Kaskag Village and branch office at the City Hall Compound, Barangay Washington. For mail distribution, it is provided by three (3) transport vehicles (1-motorcycle and 2 vans) and five (5) letter carriers.

c. Mailing, Courier, Cargo Forwarding and Money Transfer Facilities

The city is served with 14 cargo/courier services like postal service office, 2GO, LBC Express, JRS Express, DHL Express, FastPak Services, Air 21, Allied Air Freight, Mega Express, FedEx, Ninja Van, GoGo Express, JNT Express and Pates Cargo Forwarder, are the leading letter and package forwarding services.

Cebuana Lhuillier, M Lhuillier, Palawan Express and Western Union Money transfer are another service facility for immediate money transfer and transacting passport renewals.

d. Broadcast Media

The city has three (3) A.M. Stations on air: DXRS of RMN (Radio Agong), DXKS of RPN, DXSN of CMN, and four (4) FM Stations. Another is the GMA Television Network which has a transmitter at Lipata Hills and an AM-FM tower at Espina Extension. The ABS-CBN station, which is in full broadcast, has a tower at Saint Jude Thaddeus Institute of Technology. Furthermore, the city has one (1) Cable TV franchise holder serving the urban area, and some sub-urban barangays with more than 60 channels available.

e. Print Media

Local print media circulates the city and the province from different sources. These are Gold Star with 150-200 newspapers daily from Cagayan de Oro Main Office as source which provides information on countryside journalism; the Agusan-Surigao Enquirer which is a weekly publication with 1,500-3,000 newspapers; Surigao Today and Weekly Monitor are another weekly news providing information in the city.

Another newspaper circulating within the city and the province is the Surfing Surigao (former Surigao Strait News) owned by the Provincial Government with 1,500 - 3,000 copies at a monthly circulation.

National Newspaper and Magazines has an average of 440 copies of Philippine Daily Inquirer, Philippine Star and Manila Bulletin in daily circulation while national tabloid circulation will reach an average of 200 copies per day.

5.1.9 Waste Disposal System

A Sanitary Landfill handles the disposal of domestic and commercial wastes within the locality which is about eight (8) kilometers away from the central business district. The Sanitary Landfill is located in Brgy. Cagniog that accommodates private trucks/vehicles for the disposal of different kind of wastes.

The City Government, through the City ENRO, sustained the beautification and maintenance of the Sanitary Landfill facility from the cleaning of Cell 1 and 2 and the aerator ponds and the draining of waste water to its embankment. The office also supervised the use of two (2) heavy equipment. Another three (3) heavy equipment: (1) backhoe and (2) dump trucks, and one (1) broken glass shredder machine, were acquired this year for the daily operation of the facility. The Shredder and Plastic Densifier Machine were used for the flower pot and brick making using recycled materials. This year, a total of 93 flower pots were produced in the Sanitary Landfill Site.

In 2020, a total of 16,607,079.33 kgs of Residual and Recyclable wastes were dumped in the Sanitary Landfill. This was lower compared to the wastes dumped last 2019 which is 18,256,967.33.

The city government through the City General Services Office (CGSO) sustained the daily garbage collection, street cleaning activities and daily maintenance of garbage equipment. This year, a total of 36,930,400 kgs. of residual wastes was collected by the office. This was significantly lower compared to the recorded collected residual wastes of 43,883,500 kgs. in 2019.

Meanwhile, cleanliness in the main thoroughfares was maintained by the street sweepers daily from 4:00 to 8:00 in the morning and 1:00-5:00 in the afternoon.

While efforts had been exerted on massive IEC activities and in the collection of the used plastic cellophanes and other recyclable wastes, reducing the residual wastes remained a challenge to the City ENRO and City GSO.

5.1.10 Cemetery

The cemeteries have a combined area of about 12 hectares more or less (*Table 5.14*). The old public cemetery located in Barangay Washington, which occupies almost two (2) hectares is the only one centrally located within the urban area that caters to the general public.

Table 5.13 Existing Cemeteries Surigao City

Name of Cemetery/Memorial Parks Owner	Location	Ownership (Public/Private)	Area (sq. m.)
City Government of Surigao	Brgy. Washington	Public	17,954.00

TOTAL			125,056.50

Source: City Assessor's Office, Surigao City

5.1.11 Slaughterhouse

The city's slaughterhouse is located in Barangay Poctoy, which is six (6) km. away from the city proper. The site is a rectangular one-hectare lot purchased by the city government. It is bounded on the northeast by the Surigao River; southwest by the Cagpangi creek; northwest by an unproductive land; southeast by a 500 sq. meters un-irrigated riceland.

The lot is big enough to accommodate the main abattoir building of 15.50 meter by 20.75 meter; animal stockpen of 240 sq.m.; and solid/liquid treatment plant of 384 sq.m.

The area is situated in a pollution free area far from the maddening crowd. The presence of adequate supply of potable water, which comes from the mainline of SMWD, is just 200 meters from the site.

The city slaughterhouse is more or less 100 meters away from the barangay proper. Its surrounding perimeter is planted with by fast growing trees.

5.1.12 Public Market

Surigao City has two (2) markets of wet and dry type located within the Central Business District (CBD) particularly at Brgy. Taft. One is the "Central Public Market" situated at the urban center; and the other one is a "Talipapa" at Nueva Extension.

Transaction of goods in these public markets comes in all forms everyday. These markets served the population within the urban and urbanizable areas, the rural mainland and island barangays, as well as the other municipalities of the Province of Surigao del Norte.

Within the exterior area of the central public market are the convenience stores/shops which serve retail goods and services such as rice, feeds, dry goods, restaurants, snack bars, bakeshops, boutiques and repair shops.

5.2 SOCIAL SUPPORT

5.2.1 Hospitals

Surigao City is served by four (4) hospitals, two (3) of which are private and one (1) is public. This public hospital is the Caraga Regional Hospital which is the then Surigao del Norte Provincial Hospital. The following are the private hospitals: Medical Clinic, Miranda Family Hospital and Saint Paul University Hospital, all are located in Brgy. Luna, Surigao City.

5.2.2 Schools

During the school year 2019-2020, the city has 65 public and 12 private elementary schools; 21 public and 7 private secondary schools, 8 tertiary schools - a mixed-up of a State College, School of Law, Vocational Schools and Private Higher Education Schools.

5.2.3 Facilities for the Aged, Infirm, Disadvantages Sector

The city through the City Social Welfare and Development Office has implemented programs for the welfare of person with disability (PWD) and the elderly/senior citizens. The city has one facility for the elderly and PWDs located at Parrucho St., back of the City Hall Compound.

5.2.4 Cultural and Sports Facility

Located at the heart of the city hall compound, is the City Cultural Center which is a 400-seater edifice. The center is fully air-conditioned. It has WiFi Internet connections and has a VIP room, caterer's room and big restrooms. It has also high-end amplifiers, public address system and lighting system to complement future conferences, meetings and events.

The construction of the cultural center began in early March 2009 and was turned over to the city government after almost three months. This center was being funded by the city coffers.

5.2.5 Waterworks and Sewerage

The Level-III Type of Water System in Surigao City is being distributed locally by the Surigao Metropolitan Water District (SMWD). The present water distribution pipelines served the 23 mainland barangays, namely: Brgys. Taft, Washington, San Juan, Sabang, Lipata, Punta Bilar, Ipil, Mabua, Rizal, Luna, Bonifacio, Quezon, Trinidad, Togbongon, San Roque, Serna, Poctoy, Mat-i, Mabini, Canlanipa, Cagniog, Anomar and Sukailang.

The water supply system of SMWD basically operates by gravity whose main source is the Parangparang Creek, situated at Barangay Mat-i, this city, with an elevation of 167 meters above the Ceniza Heights reservoir. Other sources include the Balibayon Creek, Lumaban Spring, Matin-ao Creek, Luna Well and Marajing Creek whereby waters from Matin-ao and Marajing Creek are diverted to Parangparang Creek.

Most of the drainage system in the city is located within the city proper/urban area. These are composed of Reinforced Concrete Culvert Pipes (RCCP), Reinforced Concrete Box Culvert (RCBC) and ditches/open canals.

5.3.2 Jails

The City Jail is located at Brgy. Silop, Surigao City, which is seven (7) kilometers away from the city proper. This jail is being managed by the Bureau of Jail Management and Penology (BJMP)-Surigao Station.

The newly constructed City PNP Station also provided detention cell or imprisonment place for keeping people found guilty of minor crimes or awaiting legal judgment.

5.3.3 Freedom Parks and Public Assembly Areas

The City Luneta located at the heart of the urban center is usually considered the city's Freedom Park and/or Public Assembly Area. Group of protesters/rallyists usually gathered/assembled in this Luneta, and they used the existing Luneta Kiosk as their stage.

CHAPTER VI ENVIRONMENT AND NATURAL RESOURCES

6.1 LANDS

6.1.1 Private and Alienable and Disposable Lands

Based on the DENR data as of 2005, the city's total land area is 26,117 hectares, of which 14,883 hectares is classified into Alienable and Disposable Lands (A and D) or 57% of the city's total land area.

6.1.2 Ancestral Domain

The Mamanwa Tribe is the only recognized indigenous people's community in the city according to the National Commission of Indigenous People (NCIP). Although widely dispersed across the region occupying the Provinces of Agusan del Norte, Surigao del Norte and Surigao del Sur, the concentration of the Mamanwa Tribe in the city is mostly confined in Sitio Tagbasingan, Brgy. Mat-i and in the adjacent hinterlands. Their ancestral domain stretches across both provinces of Surigao del Norte and Agusan del Norte with a portion of it straddling the upland areas of Brgys. Mat-i and Mabini in the south-central area of the city's jurisdiction bordering the Municipality of Sison, Surigao del Norte.

6.2 FORESTLANDS

Based on the DENR's data, the city's Forestlands totaled to 11,234 hectares or 43% of the city's total land area.

6.2.1 Protection Forests

The city's Protection Forest covers 42.612 hectares located in Sitios Lumaban and Balibayon, Brgy. Rizal.

Protection forests are forestlands maintained/conserved/preserved primarily for their beneficial effects on soil and water and in the environment in general. It is classified into two areas namely: The National Integrated Protected Areas System (NIPAS) and the Non-NIPAS Areas. Under the NIPAS Area is the watershed area of 69.60 hectares located in Sitio Parang-Parang, Brgy. Mabini and Mat-i, Surigao City.

6.2.2 Production Forests

The city's Production Forest totaled to 11,091.388 hectares located at Brgys. Day-asan, San Isidro, and Nabago. Marginal uses have been noted in these areas and these are mostly confined to gathering of firewood for domestic and commercial use.

6.3 MINERAL LANDS

6.3.1 Natural/Mineral Resources and its Potential Industry

Surigao City is blessed with abundant reserves of natural resources. Of the total land area, 62% is devoted for cropland, 24% for forest land and 6% for industrial area. Surrounding marine and inland waters is one of the richest fishing grounds landing an annual average of 9,000 metric tons of first class, export quality species of fish and other exotic marine products such as prawn, lobster, seaweed and sea shells. Related industry of these resources would be commercial fishing, fish canning/food processing and or aqua-culture.

The city's islands are world class tourist destinations endowed with natural scenic attractions that can be utilized for life time adventures either on the beach or diving underwater.

The city has also indigenous raw materials such as bamboo, banban, woods and plants, root crops, coconut and its component, fishery products and metallic and non-metallic minerals which are potential for handicraft, furniture and/or lumber industry, food processing, copra production/oil milling and jewelry (See Table 6.1).

These present industries are adequately servicing the population of Surigao City and the province of Surigao del Norte. However, it is observed that the city has lacked of other manufacturing and processing industries that would cater if not all, the other industrial needs of the community. Some of these industrial products and/or services are still purchased from other cities and provinces. The possibility of establishing other viable industries in Surigao City are being hindered due to the lack of capital for operationalization of community based or rural-based producers.

Table 6.1			
Indigenous Materials and its Potential Industr			
Surigao City			

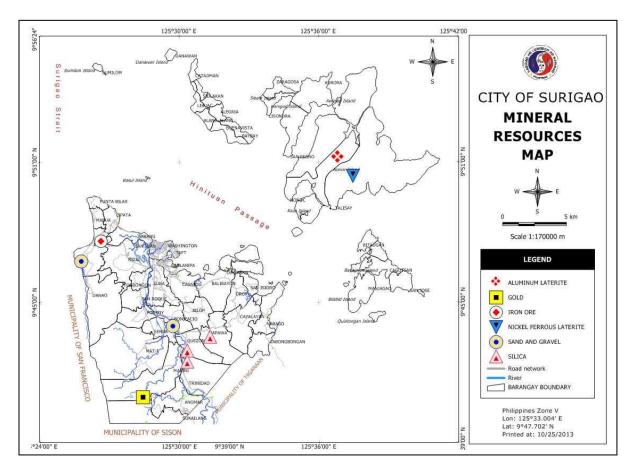

Kind	Potential Industry

Source: DTI, Surigao del Norte

The city's deposits of both metallic and non-metallic minerals consist of precious metals like gold and silver, base metals like chromite, nickel, iron and bauxite. Non-metallic minerals like clay, sand and gravel, rock phosphate, guano and the cement compounds of silica and limestone are also found in abundant and in commercial grade quantities. The preferred investments of these resources are mining/mineral processing and or specific industries like metal craft, jewelry manufacturing or gemstones processing, ceramics and or construction materials, cement manufacturing and fertilizer manufacturing.

Some of the city's natural resources are undeveloped since most of the local capitalists preferred to invest on trading and services sector. Investment on manufacturing and processing is only 10% of the total business investment of Surigao City compared to 77% of the services sector and 13% of the trading sector respectively.

As part of the Forest Land Use Plan, it was proposed

Figure 6.2 Location of Forest Parks

6.4.2 Wildlife Habitat and Sanctuary

Several wildlife species are found in both the city and province of Surigao. The most conspicuous among these, are the cave dwelling animals principally known as the "free-tailed" or "guano bats". Also, the dark and cold temperature of the cave offers a favorable habitat for different species of snakes. The identified Green Turtles (Chelonia Mydas) and Hawksbill Turtles (Eretmochelys Imbricata) are mostly found in Barangays Day-asan and Sabang, this city.

6.4.3 Civil and Military Reservations

Record shows that a total of 1.2639 hectares is under proclaimed Military and Civil Reservation and is situated in 3 barangays, namely: Taft, Buenavista and Capalayan. Children's playground in Brgy. Taft, under Cad. # 234, Lot No. 503, 504 is covered under Presidential Proclamation No. 728 (*Table 6.4*).

6.5.2 Marine Waters

Surigao City's coastline is estimated at 193,275 lineal meters covering the island and mainland barangays and the jurisdictional islands/islets. It has numerous beaches and estuaries potential for tourism and eco-tourism industry.

In order to preserve our coastal resources for a safer, healthier and sustainable environment and improve the present condition of our coastal areas, the Coastal Resource Protection Master Plan for Surigao City was crafted and approved thru SP Resolution No. 10-2020 last January 16, 2020. This

endeavor is in collaboration with the Philippine Reclamation Authority in partnership with the Embassy of the Kingdom of Netherlands.

Series of clean-up drives were initiated this year by the City ENRO wherein a total of 37,350 kg. of wastes were collected. These activities were actively participated with our partners from the national-line agencies, city offices and community volunteers.

In addition, due to shrinking forest vegetations and denuded forests, it is observed that some coastal areas in Surigao City are already silted resulting from land run-off and erosion from terrestrial origin or mountainous areas. Quarrying was also observed along shorelines and riverbeds resulting to coastal erosion and riverbank scouring.

The Provincial Foreshore Management and Development Plan (PFMDP) is a provincial wide plan initiated by the DENR-PENRO in coordination with the DENR-CENRO and LGUs along the coastal areas of Surigao del Norte, which includes the component city, Surigao city. The PDMDP was approved and endorsed by the City Development Council last 2019, thru CDC Resolution no. 15, series of 2019. The foreshore length in Surigao del Norte is approximately 32.22 kilometers. Which includes the 13 coastal barangays identified in Surigao City namely: Brgys Ipil, Mabua, Lipata, Punta Bilar, Sabang, San Juan, Washington, Canlanipa, Cagniog, Day-asan, Balibayon, San Isidro and Nabago. These barangays were classified in three (3) general zone such as: Leisure, Recreation and Tourism zone (Beaches), Management and Development zone (Docking area, seawall, port, built up area, proposed reclaimed area in Brgy. San Juan) and Protection and Conservation zone (Marine Sanctuary and mangroves).

6.6 AIR QUALITY

Surigao City's air quality in its surrounding air shed is generally normal. However, smoke pollution is slightly observed in the urban area brought about by the unregulated smoke emissions of some transport vehicles despite the implementation of the anti-smoke belching law. However, this air pollution is quite manageable.

An annual inspections were conducted by the City ENRO pursuant to Ordinance no. 277, series of 2008. This activity is conducted every year since 2009.

6.7 WASTE MANAGEMENT

The city government thru the City ENRO sustained its Massive Information Education Communication campaign activities on RA 9003 or the Solid Waste Management Act thru Radio broadcasting and posting in the social media sites to increase awareness of the community on environmental protection, conservation and waste segregation even in the midst of COVID-19. This year, the office has conducted several Intensive Information Education and Campaign activities in selected barangays and schools following the COVID-19 protocols and guidelines. Partnerships with the barangays, government offices, private sector and academe were further strengthened to ensure waste segregation even in pandemic.

In the implementation of vanguard program of the city, the Oplan Kuha Cellophane/Papel and other Recyclable Wastes Program, a total of **3,825.92** kilograms of recycled cellophane and **5,082.22** kilograms of papers, **1,777.00** kilograms of plastic bottles, **5082.90** kilograms of tin cans, **3,815.00** kilograms paper boxes/karton and **1,887.90** kilogram of used cooking oil were recorded from January to December 2020.

This significant decrease in the collection of recyclable wastes is attributed with the COVID-19 pandemic restrictions issued by the local and national government which started in March 2020 in which there were no collections made in most of the schools, offices and other establishments from April to December. In addition, only 22 barangays have actively supported the implementation of the City's Oplan Kuha Cellophane/Papel and other Recyclable Wastes Program. Table 6.7 shows the Comparative Recyclable Wastes collected thru the Oplan Kuha Cellophane/Papel Program of the city government from CY2015-2020.

Table 6.7 **Comparative Recyclable Wastes Collected** "Oplan Kuha Cellophane/Papel Program"

	Recyclables (in kgs)					Total
Year	Cellophane	Papel	Cartons	Bottles	Lata	Recyclables (in kgs)
2015	272.150	584.454				856.604
2016	1,622.680	5,257.900	93.250	338.950		7,312.780
2017	2,345.200	3,567.300	153.700	1,046.300	121.1	7,233.600
2018	5,373.688	5,230.061	1,662.319	1,222.194	187.5	13,675.762
2019	9,968.45	10,355.26	8,016.45	2,352.50	457.69	31,150.35
2020	3,825.92	5,082.22	3,815.00	1,777.00	5082.90	19583.04
Total	23,408.088	30,077.195	13,740.719	6,736.944	5,849.19	79812.136

Source: City ENRO, Surigao City

The implementation of the Oplan Kuha Cellophane ug Papel Program has 5 stages:

- 1. Collection from offices, schools, barangays, business establishments, individuals and organization;
- 2. Sorting and shredding of collected dry cellophanes and papers;
- 3. Operation of Plastic Densifier;
- 4. Production of flower pots and bricks; and
- 5. Distribution of produced flower pots and bricks.

In partnership with the Philippine Red Cross thru its Partners for Resilience(PfR) Program, a Material Recovery Facility(MRF) was established in Brgy. Anomar and was inaugurated in December 11, 2020. Equipment and materials for the MRF were turned over to the barangay officials of Anomar. The design of this newly built MRF will be the standard design for the all the MRFs that will be established in the remaining 53 barangays. In relation to City Ordinance no. 407, series of 2018, the Environmental Law Enforcement Team(ELET) was created thru Executive order no. 53, series of 2020 last August 27, 2020, to conduct inspections and monitoring to all business establishments and to issue citation tickets to those violators of the said ordinance. However, due to the request of the business sector for an extension of the moratorium, it was extended until December of 2020, to allow the business establishments to dispose their remaining plastic cellophanes since they were directed to temporarily close their establishment because of mandatory quarantine lockdowns due to COVID-19 guidelines starting March 2020.

The city government thru the City ENRO sustained the beautification and maintenance of the Sanitary Landfill facility from the cleaning of Cell 1 and 2 and the aerator ponds and the draining of waste water to its embankment. The office also supervised the use of two (2) heavy equipment. Another three (3) heavy equipment: (1) backhoe and (2) dump trucks, were acquired this year for the daily operation of the facility.

In 2020, a total of 16,607,079.33 kgs of Residual and Recyclable wastes were dumped in the Sanitary Landfill Facility. This is lower compared to the wastes dumped last 2019 which is 18,256,967.33. The Shredder and Plastic Densifier Machine were used for the flower pot and brick making using recycled materials. This year, a total of 93 flower pots were produced in the Sanitary Landfill Site.

On the other hand, City ENRO have produced 240 sacks (35 kgs per sack) of Organic Fertilizer using the Bio-Composter Shredder Machine from Takakura Composting Technology. The organic fertilizer is made from coconut husk and other biodegradable wastes collected from the public markets, flea markets and fruit stands.

The city government thru the City General Services Office sustained the daily garbage collection, street cleaning activities and daily maintenance of garbage equipment. This year, a total of 36, 930, 400 kgs of residual wastes collected by the City General Services Office. This is significantly lower compared to the recorded collected residual wastes last 2019 which is 43,883,500 kgs. Meanwhile, cleanliness in the main

thoroughfare were maintained by the street sweepers daily from 4:00 to 8:00 in the morning and 1:00-5:00 in the afternoon. Even though the concerned offices have exerted effort on their massive IEC activities and in the collection of the used plastic cellophanes and other recyclable wastes, reducing the residual wastes remains a challenge to City ENRO and City GSO.

With this, the city government thru the City ENRO and City GSO will sustain its activities in Solid Waste Management and is very optimistic that with the strict enforcement of City Ordinance no. 407, series of 2018 this 2021, there will be a significant reduction in the waste collection in the city.

CHAPTER VII LOCAL INSTITUTIONAL CAPABILITY

7.1 LOCAL GOVERNMENT STRUCTURE

7.1.1 City Organizational Structure

Surigao City has a small organization being a component city under the third-class income classification of the Department of Finance. The passage of the Local Government Code of 1991 has contributed to the creation of new departments within the LGU but still, its overall organizational structure has practically remained the same and stagnant since the late 1980's.

The existing organizational set up of the city government consists of 18 departments including the executive and legislative branches. Of this, 17 are mandatory positions under the local government code with the addition of CDRRMO and two (2) optional positions/offices, namely the City Agriculture's Office and the Office of Population and Development. Such were however, maintained by the city government to effectively address and deliver related service and development requirements being performed by these offices.

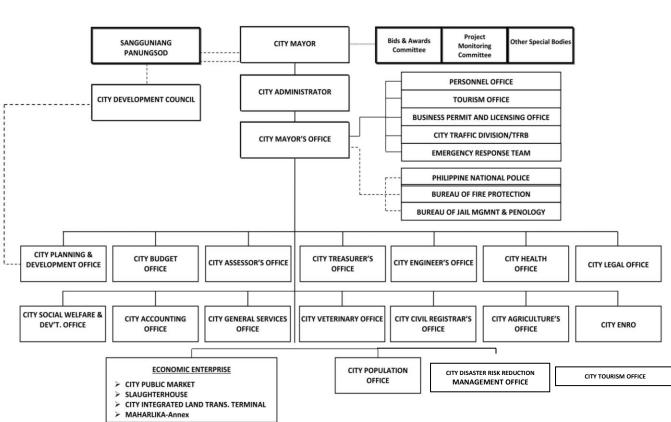

Figure 7.1 LGU ORGANIZATIONAL STRUCTURE

The City Mayor who is the chief executive of the local government unit heads the city government. He exercises general supervision and control over all programs, projects, services and activities of the city.

The Sangguniang Panlungsod, which is the legislative body of the city, enacts ordinances, approved resolutions and appropriate funds for the general welfare of the city and its constituents.

The City Council headed by the City Vice Mayor Ernesto T. Matugas with the support of 12 Sangguniang Panlungsod members are always bound for transparency and accountability for good governance. The legislators have collaborated actively with the chief executive in the realization of the city's development efforts. It sought the support of the barangay officials in passing ordinances and resolutions in order to increase the role of the populace. These two bodies, considered as the policy and law-making bodies of the local government are assisted by the City Development Council, a special body organized to initiate the comprehensive multi-sectoral development plan. It assists in

setting the direction of economic and social development and coordinating development efforts within its territorial jurisdiction.

For CY 2020, the Office of the Secretary to the Sanggunian has prepared 42 Journal of Proceedings with 42 corresponding Transcript including 12 special sessions, 104 Appropriation Ordinances, drafted and finalized 397 Resolutions, encoded and published14 Ordinances as required. Transcript for several Caucuses and committee hearings/public hearings conducted are also filed in the office, for record and reference purposes.

Bids and Awards Committee (BAC) was also created to comply with the provisions of R.A. 9184 or the Procurement Reform Act. The BAC now handles all procurement procedures of the local government not only in terms of goods and services but also including bidding and awarding of infrastructure projects.

The city government also complied with requirements of the local government code for the creation of local special bodies. Such local special bodies are:

- City School Board
- City Health Board
- City Peace and Order Council
- City Development Council
- City Zoning Board Adjustment and Appeals

Special councils/committees were also created in compliance with special national directives vis-àvis local development requirements. Among others, these are:

- City Urban Development and Housing Council
- City Disaster Coordinating Council
- City Anti-Drug Abuse Council
- City Nutrition Council
- City Council for the Protection of Women and Children
- City Solid Waste Management Board, etc.

The Human Resource Development and Management Office remained adept in its functions in handling, managing and developing the workforce of the city government.

On recruitment and selection, the total workforce of the City Government was at 5,388 which are broken down as follows: 497 Career and Non-career, 4,797 Job Orders, 68 Contract of Service, 12 Co-terminus and 14 Elective (*Table 7.1*).

Table 7.1 Comparative Workforce of the City Government Surigao City, 2017-2020

STATUS	2017	2018	2019	2020
Career and Non- career	512	514	470	497
Job Order Status	2,839	1,826	2,838	4,797

Co-Terminus	12	12	26	12
Elective	13	14	14	14
TOTAL	3,413	2,408	3,399	5,388

Source: HRMDO, Surigao City

Human Resource Management Personnel Selection Board (HRMPSB) meetings were conducted for 492 applicants for 104 vacant positions which paved the way to the grant of promotion to the 27 applicants and conferment of original appointments to the 47 new entries.

Table 7.2
Comparative Number of New and Promoted City Employees
2017-2020

Nature of Appointment	2017	2018	2019	2020	TOTAL
Original/New	58	17	31	27	133
Promotion	26	12	19	47	104
TOTAL	84	29	50	74	237

Source: HRMDO, Surigao City

The table above shows that there were 133 new employees and 104 promoted employees over a period of four (4) years from 2017 to 2020.

The Human Resources Management and Development Office remain adept in the management of employee's records and administration of leave and absences as well as its administrative functions.

On Rewards and Recognitions, City Government of Surigao has fully implemented the Program on Awards and Incentives for the Service Excellence, provided under the CSC Resolution No. 010112 and CSC MC No. 01 s. 2001, referred to as AGENCY PRAISE. It was this year that the Local Government of Surigao had a regional awardee and a semi-finalist to the 2020 Search for Outstanding Public Officials and Employees under Civil Service Commission (CSC) Dangal ng Bayan Award category for the first time in the person of **Ms. Dina E. Diaz.**

For 2020, the City Government of Surigao continues to grant Loyalty Award to employees from different offices who continuously and satisfactorily served in the LGU for a specific number of years—10, 15, 20, 25, 30, 35 and 40 years respectively-- from the date of their appointment. This year, the awardees received their Loyalty Cash Incentive on every 3rd Monday of every month upon reaching the required number of years in service but their Loyalty Plaque was given during the Loyalty Awarding in line with the 120th Philippine Civil Service Anniversary Celebration last September 21, 2020. For this year, there were eighty-four (84) awardees from the different departments that were handed by the plaques by no less than the Honorable Mayor Ernesto U. Matugas, Jr. Retirement Awards were also given.

Public Employment Service Office (PESO) was established in 1999 thru R.A. 8759, otherwise known as PESO ACT OF 1999 and was amended by R.A. 10691. This mandates to institutionalize the PESO in the LGU and is supervised by the Department of Labor and Employment. It aims to assist job seekers find jobs in local and overseas employment.

Solicitation of Job Vacancies and Placement of Job Seekers

- The office has solicited 350 Job Vacancies for Local and Overseas Employment.
- City government has hired 74 new permanent, 68 contractual and 4,797 job orders employees.
- For private business / establishments 1,742 were placed and have been issued with Mayor's Permit to vouch their employment.
- For Overseas Employment 350 persons deployed abroad
- Solicited and placed 80 students in various offices of the City Government for the Special Program on Employment of Students (SPES) for summer job
- Orientation Services to 80 applicants for SPES were conducted.
- Assisted 14 OFW Women in Distress in the Middle East in coordination with POEA and the recruitment agencies.
- Conducted Career Guidance and Employment Coaching at 16 schools wherein 832 students attended.
- Posted 350 vacancies of Private Companies at the PESO Bulletin Board and Facebook
- Assisted 6 Special Recruitment Activity for Local and Overseas Employment

To enhance capability building of employees in every service area, employees coming from the different departments and offices were sent to Capability Building Seminars/Trainings.

The Strategic Performance Management System (SPMS) remained as primary mechanism in determining the degree of performances of offices and employees which is checked and approved by the Civil Service Commission (CSC). Strict implementation of policies on tardiness, leaves and absences were sustained. Memorandums were issued to employees violating CSC policies on absences and tardiness.

Provisions of other regular administrative support services such as issuances of identification cards, service records, preparation of plantillas and appointment documents, reports to CSC on employee's ascension and separation, SALN's of employees and others were undertaken.

7.1.2 City Development Council

The City Development Council is a special body organized to initiate the comprehensive multisectoral development plan. It assists in setting the direction of economic and social development and coordinating development efforts within its territorial jurisdiction (*see Executive Order No. 37, dated October 15, 2019*).

EXECUTIVE ORDER NO. 37 Series of 2019

AMENDING EXECUTIVE ORDER NO. 33, DATED OCTOBER 2016, REORGANIZING THE CITY DEVELOPMENT COUNCIL (CDC) FOR THE TERM 2019-2022

WHEREAS, pursuant to Section 106, Title Six, Book 1 of RA No. 7160, there shall be created a Local Development Council in each Local Government Unit which shall initiate to make a comprehensive multi-sectoral development plans;

WHEREAS, cognizant to the provisions thereto, members of this Council shall assist the Local Government Unit and its Sanggunian in setting the direction of economic and social development and coordinating development efforts within its territorial jurisdiction;

WHEREAS, Executive Order No. 33, series of 2019 has reorganized the membership of the City Development Council in accordance with this mandate;

WHEREAS, with the assumption of the new set of elected officials for the term 2019-2022, there is a need to reorganize the City Development Council;

NOW, THEREFORE, I, ERNESTO U. MATUGAS JR., City Mayor of Surigao, by virtue of the powers vested in me by law, do hereby reorganize the **CITY DEVELOPMENT COUNCIL** as provided in the following sections:

Section 1. <u>General Membership.</u>

- 1. Chairperson : City Mayor
- 2. Co-Chairperson : Accredited CSO representative

Members:

3. Surigao del Norte District II Congressman or designated representative

Punong Barangays of all the City Barangays

Section 2. <u>Powers and Functions of the CDC.</u>

The CDC General Assembly shall exercise and perform the following powers and functions:

- 1. Formulate long-term, medium-term and annual socio-economic development plans and policies;
- 2. Formulate medium-term and annual public investment programs;
- 3. Evaluate and prioritize socio-economic development programs and projects;

- 4. Formulate local investment incentives to promote the inflow and direction of private investment capital;
- 5. Coordinate, monitor and evaluate the implementation of development programs and projects; and
- 6. Perform such other functions as may be provided by law or competent authority.

Section 3. Executive Committee (EXECOM).

The Executive Committee (EXECOM) of the City Development Council shall compose the following:

Chairperson	:	City	/ Mayor			
Co-Chairperson:		Acc	redited civil society organization representative			
Members	:					
		2.	SP Chairperson, Committee on Appropriations			
		3.	President, Liga ng mga Barangays			
		4.	City DILG Officer			
		5.	City Administrator			
		6.	City Planning and Development Coordinator			
		7.	City Budget Officer			
		8.	Committee chairpersons of the following sectoral committees:			
			a. Institutional Development Committee			
		b. Economic Development Committee				
			c Social Development Committee			

- c. Social Development Committee
- d. Infrastructure Development Committee
- e. Environmental Management Committee

Section 4. <u>Powers and Functions of the Executive Committee (EXECOM).</u>

The Executive Committee shall exercise and perform the following powers and functions:

- 1. Ensure that the decisions of the City Development Council are faithfully carried out and implemented;
- 2. Act on matters that need immediate attention and action of the City Development Council;
- 3. Formulate policies, plans and programs based on the objectives and priorities set by the City Development Council; and
- 4. Take final action on matters that may be authorized by the City Development Council except the approval of local development plans and annual investment programs.

Section 5. <u>Sectoral Committees.</u>

The City Development Council shall form sectoral or functional committees to assist them in the performance of their functions. The coalition of accredited CSOs shall nominate its representatives to the CDC sectoral committees.

The following shall constitute the Sectoral Committees of the CDC:

ECONOMIC DEVELOPMENT COMMITTEE (EDC)

(Cha	irperson	:	SP Chairperson, Committee on Rules and Good Government

- 12. Head, Philippine Information Agency (PIA)
- 13. Head, Philippine Statistics Authority (PSA)
- 14. Head, Civil Service Commission (CSC)
- 15. Head, City DILG
- 16. Head, City PNP
- 17. Accredited CSO Representatives

The Institutional Development Committee is composed of the following Sub-Sectors:

1) Physical Planning and Land-use; 2) Peace, Security and Reconciliation; 3) Population and Gender Development; 4) Statistical Information; 5) Revenue Generation & Resource Mobilization 6) Development Communication and Advocacy 7) Good Governance

SP Chairperson, Committee on Environment and Natural Resources

ENVIRONMENTAL MANAGEMENT COMMITTEE (EMC)

Chairperson

: Co-Chairperson : City ENRO

Members:

- 1. SP Chairperson, Committee on General Services and Government Property Management
- 2. SP Chairperson, Committee on Agriculture and Fisheries
- 3. President, Liga ng mga Barangay
- 4. Head, City Agriculture Office (CAO)
- 5. Head, City Veterinary Office (CVO)
- 6. Head, City Tourism Office
- 7. Head, City Health Office
- Head, City Planning and Development Office (CPDO) 8.
- Head, City Disaster Risk Reduction and Management Office (CDRRMO) 9.
- 10. Head, Bureau of Fisheries & Aquatic Resources (BFAR)
- 11. Head, Mines and Geo-Sciences Bureau (MGB)
- 12. Head, Department of Science & Technology (DOST)
- 13. Head, Department of Environment and Natural Resources (DENR)- Community Environment and Natural Resources Offices (CENRO)
- 14. Representative, DENR-Environmental Management Bureau (EMB)
- 15. Head, City Engineering Office (CEO)
- 16. Head, City General Services Office (CGSO)
- 17. Accredited CSO representatives

The Environmental Management Committee is composed of the following sub-sectors:

1) Forest, Freshwater, Coastal Marine Ecosystem Management; 2) Solid Waste Management; 3) Disaster Risk Reduction Management and Climate Change Adaptation

Section 6. **Powers and Functions of the Sectoral Committees.**

The Sectoral Committee herein reorganized shall have the following powers and functions:

- 1. Assist the City Development Council in the performance of their functions;
- 2. Directly establish linkages with NGAs and such sectoral or functional committee organized by the government for development, investment and consultative purposes in order to ensure policy coordination and uniformity in operational directions;
- Provide the CDC with data and information essential to the formulation of plans, programs, and activities; 3.
- 4. Define sectoral or functional objectives, set targets, and identify programs, project, and activities for the particular sector or function;

- 5. Collate and analyze information and conduct related studies;
- 6. Conduct public hearings on vital issues affecting the sector;
- 7. Coordinate planning, programming and implementation of programs, projects, and activities within each sector;
- 8. Monitor and evaluate programs and projects; and
- 9. Perform such other functions as may be assigned by the CDC.

Section 7. <u>Secretariat.</u>

The secretariat of the CDC shall be composed of the following:

- 1. The City Planning and Development Office;
- 2. Northeastern Mindanao Colleges; and
- 3. Surigao Chamber of Commerce and Industry

The heads of the above-mentioned agencies/organizations shall designate their permanent and alternate representatives to the CDC secretariat.

Further, the CPD Coordinator shall designate regular staff of the CPDO to act as the sectoral secretariat of the different committees of the CDC.

Section 8. <u>Meetings.</u>

The City Development Council General Assembly shall meet regularly at least twice (2x) in a calendar year and the Executive Committee shall meet as the need arises at the designated dates and places as determined by the Chairperson. The sectoral committees shall meet at least once every quarter or as the need arises.

Section 9. <u>Effectivity.</u>

This Executive Order amends Executive Order No. 33, dated October 2016 and shall take effect immediately.

DONE under my name and seal this 15th day of October 2019, at the City of Surigao, Philippines.

(SGD.) ERNESTO U. MATUGAS JR. City Mayor CDC Chairperson

7.2 FISCAL ADMINISTRATION

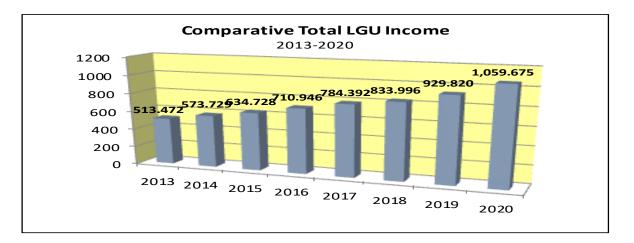

7.2.1 Income

Consolidated income of both the General Fund (GF) and Economic Enterprise (EE) totaled P1,026,458,296.21 in CY 2020. This registered an increase of 14,79% from the previous years GF and EE combined income of P894,200,089.92. The increase is more than the previous recorded increase of 10.89%.

The income from the Special Education Fund (SEF) on the other hand for the same calendar year totaled P33,217,669.93. This is a decrease of 6.74% from the SEF collection of P35,620,229.33 in CY2019. The recorded decrease in SEF for 2020 is a huge setback from the high increase of 28.79% in the preceding period.

Combined income of the consolidated GF and the SEF would bring the **total revenues of the local government to P1,059,675,966.14**. This is the first time that the city's income breached the billion mark. The total income for 2020 increased by 13.97% compared to the 2019 total income of P929,820,319.25. The increase is fueled largely by the increased share of Internal Revenue Allotment for the period and the national government remittance of the city's allocation under the Bayanihan Act aimed to address the COVID19 Pandemic.

Between 2013-2020, the LGU annual income averaged P755.095 million growing at a rate of 15.2% per annum.

IRA Dependency. The LGU share of the Internal Revenue Allotment (IRA) in 2020 totaled P768,727,926.00 which is an increase of 12.23% from the 2019 IRA of P684,934,048.00. Compared against the total income of the city for the current reporting year 2020 less the non-recurring receipts from other national sources like the share from PCSO and the Bayanihan Grant, the IRA accounts for **68.8%.** This is lower than the IRA dependency rate of 73.77% in 2019.

Regular Revenue to Total Income Ratio. Regular revenues consisting of locally-generated income and the IRA share totaled P995,348,628.25 which constitutes 93.93% of the total revenues for the same period. This is lower than the ratio at 99.85% in 2019. The somewhat large disparity is due to the sizable grant of the share from the Bayanihan Act.

INCOME SOURCE	AMC (Pl	% increase/ (decrease)	
A. LOCAL SOURCES	2019	2020	
1. Tax Revenue

Table 7.5COMPARATIVE LGU INCOME BY SOURCESurigao City, 2019-2020

Source: City Accounting Office

Income from Local Sources. Of the total LGU income, **P226**, **620**,**702**.**25** comes from local sources including those intended for the Special Education Fund (SEF). The total income from local sources decreased by 6.93% from P243,499,299.36 in 2019. The decrease is unprecedented considering the steady increase of local income for the past several years. The primary cause of the reduced income from local sources in CY2020 is the COVID19 Pandemic and the lockdown measures implemented, which affected general local economic activities.

Of the various sources of locally-generated income, the bulk comes from business taxes accounting for 30.79 %, followed by income from real property taxes 19.08%, special education tax 14.79%,

economic enterprises 12.92%, regulatory fees 11.38%, business and service income 5.78%. The business and service income consisted of rental proceeds from commercial buildings, city gym, cultural center and others, as well as fees from the issuance of clearances and the operation of the city livelihood training and productivity center, and repayments from the city's housing projects. The rest of local revenues come from other taxes composed of: community tax, franchise tax, occupation tax, professional tax, property transfer tax, tax on delivery trucks/vans, sand and gravel tax, socialized housing tax.

Figure 7.2

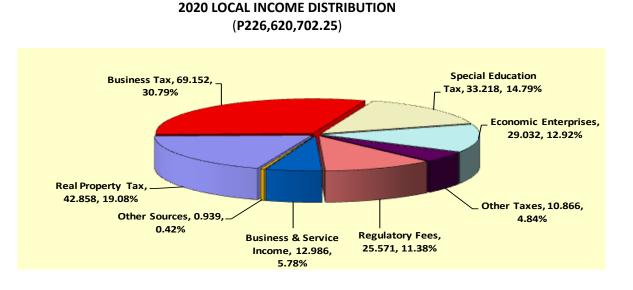

Figure 7.3 COMPARATIVE PERFORMANCE OF MAJOR SOURCES of LOCAL REVENUES Surigao City 2018-2020(in million PhP)

In terms of collection performance from major sources in 2020, collection efficiency from the general fund is 96.67%. This is lower than the 99.62% collection efficiency in the previous year. The economic enterprises on the other hand registered a collection efficiency of 157.43% compared to its previous year's 98.14%. This is primarily caused by the transfer of public market-related budget and expenditures to the General Fund, with the planned implementation of the PPP Project on the new market. The implementation however of the project was delayed due to the CoVid pandemic. The pandemic likewise greatly affected the collection efficiency of the Land Transport Terminal registering only 32.2%.

For the collection efficiency of local taxes, business taxes surpassed its target once again with an efficiency rate of 105.11%, higher than the previous year's 100.98%. This is the fourth consecutive year that business tax collection achieved more than 100% with 112.4% in 2018 and 106.52% in 2017. For the third straight year also, collection of real property taxes surpassed its target with a rate of 104.15% from 100.67%, in 2019, and 106.9% in 2018. Under economic enterprises, the

highest collection performing facility is the Slaughterhouse once again with 93.88%. In the two previous years, it exceeded its target and registered a collection performance of 114.42% in 2019, a high of 169.4% in 2018, from only 63.6% in 2017. The Land Transport Terminal further dropped to a low of 32.2% from 91.12% in 2019, 99.7% in 2018, and 100.25% collection efficiency in 2017.

Looking into the year-on-year performance of collections from regular sources, local taxes decreased by 27.72% from posting increases of 12.8% in 2019, 3.97% in 2018, and 14.51% in 2017. This despite the real property and business taxes posting increases for the same period. The increase in Business taxes dipped further to 3.4%, from 7.7% in 2019, 13% in 2018, and 4.62% increase in 2017. The increase in Real Property Taxes also reduced to 9.03%, from a high of 24.5% in 2019, and 38.28% achieved in 2018, and a level performance in 2017.

For the reporting calendar year, income from regular sources of the General Fund increased by 8.97%, from 11% in 2019, 5.23% in 2018, and 11.25% in 2017. Only the real property tax, business tax and our IRA share posted increases for regular sources of the General Fund, and offsetting the decline in the total local taxes, fees and charges, and other non-tax revenues.

For the Economic Enterprises, the CoVid pandemic affected the operations of our facilities with all sources posting reduced collections resulting to an overall decrease of 23.37%. This after posting increases of 7.7% in 2019, 10.31% in 2018, and a meager 1.92% in 2017. The transport terminal posted the highest decrease of 67.03% due to the pandemic travel ban. The slaughterhouse likewise decreased by 17.95% and the public market by 5.03%.

Table 7.8 COMPARATIVE REAL PROPERTY TAX ACCOMPLISHMENT RATE

Surigao City; 2018-2020

2018			2019			2020			
	Tax Due	Collection (including SEF)	Rate (%)	Tax Due	Collection (including SEF)	Rate (%)	Tax Due	Collection (including SEF)	Rate (%)
	70,412,463.00	60,930,699.69	86.53	116,901,881.25	77,046,141.74	65.91	115,720,235.50	76,075,720.01	65.74

For Real property taxes (RPT), the same rate of levy of 1.5% basic tax and 1.0% special education tax is being imposed under the 6th General Revision of Real Property Assessment and Classification enacted under City Ordinance No. 402, series of 2018, which started implementation in 2019. The Gross Total Assessed Value of taxable real properties totaled 5.035 billion in 2020. This is roughly at the same level with the P5.083 billion in 2019. The gross assessment for the previous years is P3.046 billion in 2018 and P2.938 billion in 2017.

Less the cancellations made for the period and the under restriction/problematic assessment of more than P406.588 million, the net assessment 2020 totaled P4.628 billion. This is almost the same level as the net assessment of P4.676 billion in 2019, which was a huge increase from the previous years' P2.816 billion in 2018 and P2.708 billion in 2017. The estimated tax due (1.5% basic + 1.0% special education tax) for 2020 amounted to P115.720 million. This is a notch lower by 1.01% from 2019's P116.901 million. In 2018, the tax due estimate was only P70.412 million.

Real Property Tax (RPT) Accomplishment Rate. The collection of both basic real property tax and special education tax for 2020 totaled 76,075,720.01. This is a notch lower by 1.26% compared to the total RPT collection of P77,046,141.74 in 2020. The prior period showed a 26.44% increase from the 2018 total of P60,930,699.69. Based on the total collections versus the total assessed tax due, real property tax accomplishment rate for 2020 is 65.74%, roughly the same level with the 65.91% recorded in 2019.

2018 recorded a high RPT accomplishment rate of 86.53%. The years prior showed 64.67% in 2017, and 74.64% in 2016.

7.2.2 Expenditures

The city's total expenditures for 2020 totaled P973,891,471.94. This is an increase of 18.29% compared to the expenditures of P823,312,681.03 in 2019. The increase for this reporting year is higher than the 10.47% recorded the previous period based on a P745,265,469.83 total expenditures recorded in 2018. The largest expense went to general governance and administration functions 58.49%, followed by social services 15.07%, infrastructure development services 11.30%, economic and environment services 7.38%, disaster risk reduction and management 2.48%, education services under the special education fund 2.24%, debt repayments 1.96%, and operation of economic enterprises 1.09%.

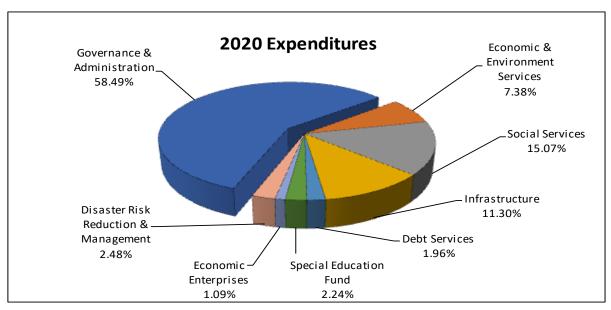

Figure 7.4 2020 EXPENDITURES

Table 7.9 EXPENDITURES Surigao City, CY 2020

EXPENDITURES	AMOUNT (PhP)
General Fund (Proper)	786,720,273.26
Economic & Environment Services	53,102,993.51
Social Services	123,106,532.63
Infrastructure Services	40,868,424.02
Governance & Administration	569,642,323.10
20% Development Fund	130,651,502.30
Debt Servicing	19,074,086.00
Economic & Environment Services	18,722,533.30
Infrastructure	69,176,961.32
Social Development	23,677,921.68
Special Education Fund	21,797,146.84
Economic Enterprises	10,618,973.64
Disaster Risk Reduction and Management	24,103,575.90
TOTAL	973,891,471.94

Per Capita Expenditure. The total expenditures of 2020 totaling P973.891 million constitute a per capita expenditure of **P6,318.35** based on a 2015 population of 154,137 (PSA Census). In 2019, the per capita expenditure was **P5,341.43** based on the same official population data and a total expenditure of P823.312 million.

Debt Servicing. The expenses in paying existing loans reduced further to just **1.96%** of the total expenditures in 2020. Total amount spent for debt payments totaled P19,074,086.00. In 2019 the amount of P20,306,582.99 is **2.47%** of the total expenditures for that year. It was 2.69% in 2018 and 3.27% in 2017. This is way below the allowable maximum of 20% ceiling in the Local Government Code and still considered exemplary being within the 0-8% bracket of the local governance performance management standards.

Economic Enterprise Profitability Rate. The income from local economic enterprises in 2020 is P29,031,821.00. The expenditure is notably much lower at only P10,618,973.64 since the public market account has already been transferred to the General Fund, in anticipation of the implementation of PPP Project for the new market which was delayed due to the CoVid pandemic. Hence, the public market income of more than P17.4 million was actually transferred to the General

Fund bringing the total income of the Economic Enterprises to just P11,621,797.50. The net income is very low at only **P1,002,823.86.** This is a high decrease of 88.5% reflecting the effect of the pandemic compared to the previous years' net income of P8,752,553.28 in 2019, P6,278,192.18 in 2018, and P4,591,414.04 in 2017.

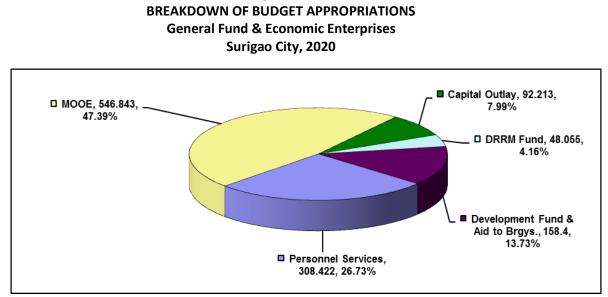

The **profitability rate** of the city's economic enterprises in 2020 reduced to **8.63%**. This is just a benchmark or average performance compared to the previous years' 23.10% in 2019, 17.84% in 2018 and 14.4% in 2017. It is only the slaughterhouse operations that brought about this profit margin considering that subsidies from the General Fund were already provided to support the expenditures of the Land Transport Terminal.

Cost-to-Collection Ratio. Collection expenditures (treasury and assessment services) in 2020 totaled **P51,322,755.93.** This increased by a high of 26.99% compared to the collection expenditures in 2019 amounting to P40,415,745.59. This is the highest recorded increase in the last three (3) reporting periods. Previous years recorded an increase of 8.77% from P37,156,686.32 in 2018 and increase of 16.23% from the expenditures of P31,966,127.81 in 2017.

Compared against the total amount of local income this year at P226,620,702.25, **the cost-to-collection ratio is 22.65%.** This is higher than the ratios recorded in the previous years; 16.6% in 2019, 17.39% in 2018, and 16.36% in 2017. This means that the LGU is spending almost P0.23 centavos for every peso that it collects.

Figure 7.5

7.2.3 Resource Allocation

Source: City Budget Office

Total LGU Budget. Total budget appropriations in 2020 amounted to P1,153,933,443.81. This budget is higher by 24.94% compared to the P923,602,596.61 appropriation in 2019. The percentage increase for this period is also higher than the 8.31% increase in the previous period with the total of P852,761,568.87 budget for 2018. There were nine (9) Supplemental Budgets passed last year; three (3) of which are new appropriations covering the Surplus for the previous year, the Bayanihan Grant, and the proceeds of the DBP Loan for the City Annex Building Project. Six (6) of the supplemental budgets cover realignments and/or reversion of funds.

In terms of budget performance, the breakdown of budget appropriations for 2020 for both the general fund and economic enterprises showed maintenance and other operating expenditures (MOOE), accounting for the largest share at 47.39%. This is followed by personnel services at 26.73%, development fund and aid to barangays at 13.73%, capital outlay at 7.99%, and disaster risk reduction and management (DRRM) fund at 4.16%.

Personnel Services (PS) Expenditure. The actual obligations under the General Fund for Personnel Services (PS) in 2020 totaled P280,760,127.10. This increased by 9.74% from the 2019 PS

expenditures of P255,838,613.67. In the preceding period the PS expenditure increase was a mere 2.87% in 2018 of P248,701,546.73.

This PS expenditure represents 36.41% of the city's regular income in the next preceding year and is way below the 45% budget cap for the city which is computed at P347,018,693.77 for 2020.

7.3 DEVELOPMENT LEGISLATION

The City Council headed by the City Vice Mayor Ernesto T. Matugas, with the support of 12 Sangguniang Panlungsod members, is always bounded by transparency and accountability for good governance. As the legislative body of the City, the Sanggunian Panlungsod acts in several mechanisms pursuant to the provisions of RA 7160; it creates and approves local ordinances and resolutions; reviews plans, programs and budget of the city; appropriates funds for the implementation of programs and projects and regulate the use of lands, buildings and structures in the city as well as the renewal of franchises.

The year 2020 had been a tough one for the Sangguniang Panlungsod (SP) due to the threat of the CoViD-19 Pandemic. But even amidst the uncertainties and fear, the city's legislators managed to perform and attend to their duties and responsibilities being public officials by utilizing video communication platforms on the internet during the conduct of sessions and committee hearings.

The following are some of the measures undertaken by the SP:

ORDINANCE NO.	ORDINANCE TITLE	AUTHOR
1. Ordinance No. 422 Series of 2020	An Ordinance regulating the Use of Helmets, Bonnets, Masks and other Similar Headgear for Motorcycle Riders Plying the City Streets and various barangays of the City of Surigao and for	Hon. Noel Christian G. Catre, Jr. Hon. Danilo C. Menor
	Other Purposes.

7.4 LGU-CSO-PRIVATE LINKAGES

7.4.1 Organizations

Under the present term 2019-2022, a total of 38 organizations were accredited by the Sangguniang Panlungsod. This is a reduction from the number of accredited organizations in the previous term which reached a total of 49 in term ending June of 2019. Considering that the number of accredited organizations covers just the first six months of the term 2019-2022, the number is expected to increase still in the years ahead (Table 7.12).
