### MISCELLANEOUS PROVISIONS (LAR No. 7:77)

Sec. 7.01-Applicability of the Schedule - Real-property shall be valued for taxation purposes on the basis of the schedule of market values prepared for the city or municipality. As far as properly applicable, such schedule shall be controlling, except where the property to be assessed is not of the same kind as classified in the schedule, or where the value is not fixed. The same shall be valued at its market value independent of said schedule.

Sec 7.02 - Appraisal of Urban Lands - (a) As a general rule, the rate per square meter fixe in the schedule on residential, commercial and Industrial lands, shall be applied to urban lands within the standard depth strip fronting the street or road with normal elevation or level. The remaining portions thereof shall be considered as interior lots and on the basis of the standard depth, percentage of adjustments corresponding to the second, third, fourth and fifth strips, shall be established or fixed by assessor after a study of lot values relative to depth variations.

- (b) On abnormally low urban lands, a reduction from the base unit value may value may be allowed in the amount equivalent to the cost of filling up such land, provided such reduction shall not exceed 30% of the value of lot subject to appraisal, if it were normally filled or leveled.
- (c) Valuation of lands defined as Special Class under Section 19 of Presidential Decree No. 464 shall be based on the applicable unit value for residential, commercial or industrial lands as fixed in the schedule for the area where such Land is located.
- (d) Whenever a parcel or tract of urban land is situated at the corner of two streets, a corner influence as defined under Section 3.09 hereof, shall be added to the base full value of the street with higher value, up to the standard depth. Valuation of the remaining portion of the lot if there are any, shall be based also from the higher rate and adjusted accordingly.
- (e) Roads or streets in urban subdivisions, unless already donated and turned over to the government shall be listed separately as taxable in the name of the subdivision owner and shall be value on the of the cost of cementing asphalting and paving, with gravel and sand. As estimated of such cost in square meters shall be established by the assessor. Such road or streets shall be assessed at 30% of their total estimated cost.
  - (f) Rules for Computing Values:

Rule 1 - The value of rectangular lots shall be computed as follows:

- (a) Rectangular lot within the standard depth. To find the value of a rectangular lot within standard depth, multiply base unit by its area.
- (b) Rectangular lot whose depth exceeds the standard. The following computation illustrates how a rectangular lot whose depth exceeds the standard depth shall be valued

Suppose a residential lot 20 by 50 meters is located along street whose schedule of base unit value is P 20.00 and the standard depth for residential land in the locality is 20.00 meters.

Strip	:Unit Value	e:%Value	:	Adj. UV	: Area(	Width	(Depth)	: Value
1	: P 20.00	: 100%	:	P 20.00 : 400	( 20	x 20	) : P 8,000	
2	: -	: 80%	:	P 16.00 : 400	( 20	x 20	): 6,400	
3	: -	: 60%	:	P 12.00 : 200	( 20	x 20	): 2,400	
		TOTAL.		•••••	1,000	sq.m.	P 16.	800

(c) Rear (Interior) Rectangular Lots-To find the value of a rear Interior rectangular lot, extend first the two (2) opposite sides a hypothetical rectangular lot supposedly formed by a combination of the hypothetical rectangular lot and the subject lot as in Rule 1 (b). This value less the value of the hypothetical rectangular lot computed also as in Rule 1 (b) is the value of subject rectangular lot.

#### Rule II

### -Triangular Lots

- (a) Triangular lot with base on street To find the value of a triangular lot with base on street, first compute as a rectangular lot as in Rule 1, then take one third (1/30 of the resulting value.
- (b) Triangular lot with apex on street To find the value of a triangular lot with apex on street, first compute as rectangular lot as in Rule I, then take one third (3) of the resulting value.

- Rule III

  -Trapezoidal Lot To find value of a trapezoidal lot, compute the values of the rectangular and triangular portions separately, according to the rules hereof and take the sum on the computed values for the total value.
- Rule IV -Irregular Lot-Reduce the irregular lot to the nearest equivalent rectangular, triangular, trapezoidal sectors and apply the stated rules for the computations of lot values.

Sec. 7.03-Appraisal of Agricultural Lands-The base rate per hectare or per tree as fixed in the schedule for different classes of agricultural lands and Improvements are subject to the applicable adjustment expressed in percentage such as (a) Type of public road where the property is located (b) Distance of property from the public road (c)

Distance of property from the poblacion, Convenient spaces for the application of such adjustments are so provided in the Tax Declarations Form (RPA Form No. 1)

Sec. 7.04-Appraisal of Timber and Forest Lands - Timber and forest lands shall be appraised and assessed in accordance with the provisions of Presidential Decree No. 853 as amended by Presidential Decree No. 888 and as implemented under Assessment Regulations No. 3-76 dated February 9, 1976 of this Department.

Sec. 7.05-Appraisal of Mineral Lands-Mineral lands shall be valued in accordance with the schedule of market values for such land as fixed under Provincial Circular No. 3-73 dated January 24, 1973 of this Department.

(Replacement) Cost less Depreciation Method. The schedule of base unit cost for buildings prepared in accordance hereof when applied, will result in the cost of constructing a new reasonably identical structure with the same or equivalent material, and shall be computed on the basis of current price. This amount called the production or replacement cost (new), less the estimated depreciation, would give the present appraised value of the subject structure.

Auxillary improvements, such as fences, pavements etc., which may be considered appurtenance/s of the main structures, shall be appraised independently, and the value/s thereof, added to the value of the main structure.

Sec. 7.07 - **Appraisal of Machinery** - All kind of machineries classified **as real** property shall be appraised and assessed in accordance with the provisions of the Department Order No. 22-73 dated June 18, 1973 of the Department.

Sec. 7.08-Pertinent Rules and Regulations under Assessment Regulations No. 3.75 dated February 10, 1975 - Subject to the provisions of these regulations, appraisal and assessment of real property shall be governed by the rules and regulations provided for under Assessment Regulations No. 3-75 dated February 10, 1975 of this Department.

Sec. 7.09-**Repealing Clause** - All rules and regulations inconsistent with the provisions of these Assessment Regulations are hereby modified accordingly.
